FINM8001
Research Project in Finance

This course provides students with the opportunity to undertake supervised research under the guidance of a staff member. An initial class will be held in the first week of semester to explain the supervisory arrangements. In the main, the research topics will be largely empirical in nature. Each semester, the course coordinator will compile a list of potential topics, with the assistance of staff in the Research School of Finance, Actuarial Studies and Applied Statistics. This list will be made available to enrolled students at the start of the semester. Students will choose topic areas that are of interest and then approach a member of staff with interests in the area to obtain access to data and to discuss the project. This discussion should include a clear statement of the scope of the project and the expectations that the supervisor has for the project.

### Mode of Delivery
On campus

### Prerequisites
You will need to contact the Research School of Finance, Actuarial Studies & Statistics to request a permission code to enrol in this course.

### Incompatible Courses

### Course Convener:
Dr Anna von Reibnitz
Phone: 6125 4626
Email: Anna.vonreibnitz@anu.edu.au

SEMESTER 1
2017
COURSE OVERVIEW

Learning Outcomes
On completion of this course students should have an understanding of and be able to apply the techniques outlined in the course description.

Research-Led Teaching
This course provides students with the opportunity to undertake supervised research under the guidance of a staff member.

Feedback

Staff Feedback
Students will be given feedback via written and verbal feedback from their supervisor.

Student Feedback
ANU is committed to the demonstration of educational excellence and regularly seeks feedback from students. One of the key formal ways students have to provide feedback is through Student Experience of Learning Support (SELS) surveys. The feedback given in these surveys is anonymous and provides the Colleges, University Education Committee and Academic Board with opportunities to recognise excellent teaching, and opportunities for improvement.

For more information on student surveys at ANU and reports on the feedback provided on ANU courses, go to http://unistats.anu.edu.au/surveys/selt/students/ and http://unistats.anu.edu.au/surveys/selt/results/learning/

Policies
ANU has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and implement them. You can find the University’s education policies and an explanatory glossary at: http://policies.anu.edu.au/

Students are expected to have read the Academic Misconduct Rules 2014 before the commencement of their course.

Other key policies include:
- Student Assessment (Coursework)
- Student Surveys and Evaluations
Contact hours for the course will take the form of periodic meetings between student and supervisor.

**Assessment Tasks**

**Assessment Task 1:** Research Proposal Discussion  
**Details of task:** Discussion with the supervisor of a research proposal outlining the aims, methods, data and timeline for the research project  
**Value:** 10%  
**Due date:** on or before 31 March (timing to be determined with supervisor)

**Assessment Task 2:** Research Paper  
**Details of task:** Submission of the final research report, structured as a mini thesis.  
**Word limit:** 30-50 pages (double spaced)  
**Value:** 90%  
**Due date:** 26 May  
**Estimated return date:** 9 June

**Extensions and penalties**
Extensions and late submission of assessment pieces are covered by the Student Assessment (Coursework) Policy and Procedure.

The Course Convener may grant extensions for assessment pieces that are not examinations or take-home examinations. If you need an extension, you must request it in writing on or before the due date. If you have documented and appropriate medical evidence that demonstrates you were not able to request an extension on or before the due date, you may be able to request it after the due date.

No submission of assessment tasks without an extension after the due date will be permitted. If an assessment task is not submitted by the due date, a mark of 0 will be awarded.

**Referencing requirements**
Harvard referencing style should be used.

**Scaling**
Your final mark for the course will be based on the raw marks allocated for each of your assessment items. However, your final mark may not be the same number as produced by that formula, as marks may be scaled. Any scaling applied will preserve the rank order of raw marks (i.e. if your raw mark exceeds that of another student, then your scaled mark will exceed the scaled mark of that student), and may be either up or down.

**SUPPORT FOR STUDENTS**
The University offers a number of support services for students. Information on these is available online from [http://students.anu.edu.au/studentlife/](http://students.anu.edu.au/studentlife/)
