BUSN8007

Analysis of Financial Reporting

Course Description

This course is about financial reporting, but not how to report or account for activities. Two key features of the syllabus are the explicit linkage to the research literature and the emphasis on empirical evidence. The adopted approach is largely based on the economics of accounting and finance. The course also aims to introduce students to the theoretical and practical skills required to conduct their own empirical research.

**SEMESTER 1**

**2018**
COURSE OVERVIEW

Learning Outcomes

Upon completion of the course students will have:

1. read widely within the literature concerning the information content of published financial statements and the use of accounting information in contracting
2. demonstrated an understanding of the key issues presented in the above literature and the implications of these issues for accounting research and practice
3. developed rudimentary empirical research skills

Research-Led Teaching

This course is a research-based course, which aims to familiarize students with the contemporary research themes, techniques and outcomes in the financial accounting and capital market area. Students will gain research skills through

1. a systematic review of seminal research papers in various areas of accounting research;
2. class presentations and discussions of a selective list of research outputs;
3. a practical research project that help students use statistical method to undertake scientific inquiries.

Feedback

Staff Feedback

Students will be given feedback in various ways in this course, including verbal or written feedback on the return of assessment tasks, during class discussion, or during consultation with lecturers and tutors.
Student Feedback

ANU is committed to the demonstration of educational excellence and regularly seeks feedback from students. One of the key formal ways students have to provide feedback is through Student Experience of Learning Support (SELS) surveys. The feedback given in these surveys is anonymous and provides the Colleges, University Education Committee and Academic Board with opportunities to recognise excellent teaching, and opportunities for improvement.

For more information on student surveys at ANU and reports on the feedback provided on ANU courses, go to:

http://unistats.anu.edu.au/surveys/selt/students/ and
http://unistats.anu.edu.au/surveys/selt/results/learning/

Policies

ANU has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and implement them. You can find the University’s education policies and an explanatory glossary at: http://policies.anu.edu.au/

Students are expected to have read the Academic Misconduct Rule before the commencement of their course.

Other key policies include:

- Student Assessment (Coursework) Policy
- Student Assessment (Coursework) Procedure
- Student Surveys and Evaluations
- Copyright (http://copyright.anu.edu.au/)

Examination material or equipment

Details regarding materials and equipment that is permitted in an examination room can be found on the ANU website:

http://www.anu.edu.au/students/program-administration/assessments-exams/examination-conduct

Information regarding permitted examination materials for the course will be available on the examination timetable website when the examination timetable is released:

http://timetable.anu.edu.au/
**READING LISTS**

**Topic 1: (i) Introduction to the course and (ii) Understanding statistical evidence**

Lennox, C. and J. Pittman, 2011, “Voluntary Audits versus Mandatory Audits”, The Accounting Review, 86, 1655-1678 (Examples of statistical analysis employed in this paper will form the basis of this class).

You should also begin reading papers for the following week’s seminar.

**Topic 2: Accounting information and capital markets**

Further reading:

**Topic 3: Agency conflicts and Positive Accounting Theory**

Further reading:

**Topic 4: Earnings management**

Further reading:

**Topic 5: The role of accruals and the accrual anomaly**

**Further reading:**

**Topic 6: Accounting Conservatism**

The role of conservatism in Accounting; An examination of the definition, measurement, testing of conservatism.

**Further reading:**

**Topic 7: International Institutional Factors and Financial Regulation**

**Topic 8: Prediction of Future Cash Flows and Earnings**

Further reading:

Topic 9: Valuation and Expected Returns

Further reading:

Topic 10: Security Analysts: role and incentives

Further reading:

**ASSESSMENT REQUIREMENTS**

The ANU is using Turnitin to enhance student citation and referencing techniques, and to assess assignment submissions as a component of the University’s approach to managing Academic Integrity. For additional information regarding Turnitin please visit the ANU Online website.

Students may choose not to submit assessment items through Turnitin. In this instance you will be required to submit, alongside the assessment item itself, copies of all references included in the assessment item.

As a further academic integrity control, students may be selected for a 15 minute individual oral examination of their written assessment submissions.

Any student identified, either during the current semester or in retrospect, as having used ghost writing services will be investigated under the University’s Academic Misconduct Rule.

**Assessment Task 1:** Practical Research Assignment

**Details of task:**

**Value:** 30%
Requirements: The practical research assignment will require you conduct empirical research on a sample of real firms. Suggested topics will be provided. Alternatively, you may negotiate a topic with your course coordinator. You will be required to:

- Identify and download a sample appropriate for your purpose
- Import your data to a statistical program and manipulate data in such a program including SPSS, Stata and SAS
- Conduct rudimentary multivariate analysis of your data
- Prepare a professionally presented report detailing your research motivation, method and findings

Estimated return date: Prior to the final exam

Assignment Submission

Online Submission: Assignments are submitted using Turnitin in the course Wattle site. You will be required to electronically sign a declaration as part of the submission of your assignment. Please keep a copy of the assignment for your records.

No submission of assessment tasks without an extension after the due date will be permitted. If an assessment task is not submitted by the due date, a mark of 0 will be awarded.

Returning assignments

Assignment will be returned online.

Resubmission of assignments

Resubmission of assignments are not permitted.

Referencing requirements

Harvard Referencing

Extensions and Penalties

Extensions and late submission of assessment pieces are covered by the Student Assessment (Coursework) Policy and Procedure.

The Course Convenor may grant extensions for assessment pieces that are not examinations or take-home examinations. If you need an extension, you must request in writing on or before the due date. If you have documented and appropriate medical evidence that demonstrates you were not able to request an extension on or before the due date, you may be able to request it after the due date.

No submission of assessment tasks without an extension after the due date will be permitted. If an assessment task is not submitted by the due date, a mark of 0 will be awarded.
Assessment Task 2: Seminar Report and Lead Discussion

Details of task:

Each student will be required to lead the class discussion on an academic paper in at least one occasion. Depending on enrolments, there may be more than one student assigned to a particular paper. While you are not expected to present a complete ‘lecture’ on your topic, you should prepare a small number of PowerPoint slides or hand-outs highlighting key issues/tables/equations/diagrams relevant to your readings. For the paper that you are assigned as the discussion leader, you will also be required to submit a written summary of the key issues including critiques considered in the paper. The written submission is due at the start of the presenting seminar. You will be assessed on your demonstrated understanding of the assigned article(s) and their relevance to key issues studied in this course.

Assessment Task 3: Participation in Seminar Discussion

Details of task:

You will be awarded a grade reflecting the frequency and quality of your contributions to seminar discussions. This mark is independent of that awarded under Seminar Report and Discussion. There are two components of this assessment: in-class discussion and written critiques. Failure to attend classes will affect your participation grade.

During the weeks which you are not allocated as the presenter, you may choose to hand in a 1-2 pages (strictly) of summary and critique for one of the papers discussed during class. You are expected to hand in at least 4 critiques (for the presented and non-presented papers) during the semester.

Returning assignments

Assignments will be returned in class.

EXAMINATIONS

The final examination will be held during the University’s official examination period. It covers all topics.

Scaling

Your final mark for the course will be based on the raw marks allocated for each assignment or examination. However, your final mark may not be the same number as produced by that formula, as marks may be scaled. Any scaling applied will preserve the rank order of raw marks (i.e. if your raw mark exceeds that of another student, then your scaled mark will exceed the scaled mark of that student), and may be either up or down.
Privacy Notice

The ANU has made a number of third party, online, databases available for students to use. Use of each online database is conditional on student end users first agreeing to the database licensor’s terms of service and/or privacy policy. Students should read these carefully.

In some cases student end users will be required to register an account with the database licensor and submit personal information, including their: first name; last name; ANU email address; and other information.

In cases where student end users are asked to submit ‘content’ to a database, such as an assignment or short answers, the database licensor may only use the student’s ‘content’ in accordance with the terms of service – including any (copyright) licence the student grants to the database licensor.

Any personal information or content a student submits may be stored by the licensor, potentially offshore, and will be used to process the database service in accordance with the licensors terms of service and/or privacy policy.

If any student chooses not to agree to the database licensor’s terms of service or privacy policy, the student will not be able to access and use the database. In these circumstances students should contact their lecturer to enquire about alternative arrangements that are available.

TUTORIAL / SEMINAR REGISTRATION

No tutorial registration in this course.

SUPPORT FOR STUDENTS

The University offers a number of support services for students. Information on these is available online from http://students.anu.edu.au/studentlife/
