FINM8500
RSFAS Masters Thesis

This course requires students to complete either a 12 or 24 unit masters thesis in Finance. The course is available to excellent students enrolled in the Master of Finance who wish to progress to PhD study. Students will undertake independent research under the guidance of a supervisor. At completion of this thesis course, students will have developed the capacity to perform high-level independent research, and have an in-depth knowledge of their chosen research topic.

Note: completion of this course does not guarantee admission into a PhD program at any university.

SEMESTER 1
2018
COURSE OVERVIEW

Learning Outcomes
On completion of this course students should have an understanding of and be able to apply the techniques outlined in the course description.

</table>

Research-Led Teaching
This course provides students with the opportunity to undertake supervised research under the guidance of a staff member.

Feedback

Staff Feedback
Students will be given feedback via written and verbal feedback from their supervisor.

Student Feedback
ANU is committed to the demonstration of educational excellence and regularly seeks feedback from students. One of the key formal ways students have to provide feedback is through Student Experience of Learning Support (SELS) surveys. The feedback given in these surveys is anonymous and provides the Colleges, University Education Committee and Academic Board with opportunities to recognise excellent teaching, and opportunities for improvement.

For more information on student surveys at ANU and reports on the feedback provided on ANU courses, go to http://unistats.anu.edu.au/surveys/selt/students/ and http://unistats.anu.edu.au/surveys/selt/results/learning/

Policies
ANU has educational policies, procedures and guidelines, which are designed to ensure that staff and students are aware of the University’s academic standards, and implement them. You can find the University’s education policies and an explanatory glossary at: http://policies.anu.edu.au/

Students are expected to have read the Academic Misconduct Rules 2014 before the commencement of their course.

Other key policies include:
• Student Assessment (Coursework)
• Student Surveys and Evaluations
COURSE SCHEDULE
Contact hours for the course will take the form of periodic meetings between student and supervisor.

Assessment Tasks

Assessment Task 1: Research Proposal Discussion
Details of task: Discussion with the supervisor of a research proposal outlining the aims, methods, data and timeline for the research project
Value: 10%
Due date: on or before 23 March (timing to be determined with supervisor)

Assessment Task 2: Research Thesis
Details of task: Submission of the final research report, structured as a thesis.
Word limit:
- 24-unit thesis: max 80 pages (double spaced)
- 12-unit thesis: 30-50 pages (double spaced)
Value: 90%
Due date: 25 May

Extensions and penalties
Extensions and late submission of assessment pieces are covered by the Student Assessment (Coursework) Policy and Procedure.

The Course Convener may grant extensions for assessment pieces that are not examinations or take-home examinations. If you need an extension, you must request it in writing on or before the due date. If you have documented and appropriate medical evidence that demonstrates you were not able to request an extension on or before the due date, you may be able to request it after the due date.

No submission of assessment tasks without an extension after the due date will be permitted. If an assessment task is not submitted by the due date, a mark of 0 will be awarded.

Referencing requirements
Harvard referencing style should be used.

Scaling
Your final mark for the course will be based on the raw marks allocated for each of your assessment items. However, your final mark may not be the same number as produced by that formula, as marks may be scaled. Any scaling applied will preserve the rank order of raw marks (i.e. if your raw mark exceeds that of another student, then your scaled mark will exceed the scaled mark of that student), and may be either up or down.
Privacy Notice
The ANU has made a number of third party, online, databases available for students to use. Use of each online database is conditional on student end users first agreeing to the database licensor’s terms of service and/or privacy policy. Students should read these carefully.

In some cases student end users will be required to register an account with the database licensor and submit personal information, including their: first name; last name; ANU email address; and other information.

In cases where student end users are asked to submit ‘content’ to a database, such as an assignment or short answers, the database licensor may only use the student’s ‘content’ in accordance with the terms of service – including any (copyright) licence the student grants to the database licensor.

Any personal information or content a student submits may be stored by the licensor, potentially offshore, and will be used to process the database service in accordance with the licensors terms of service and/or privacy policy.

If any student chooses not to agree to the database licensor’s terms of service or privacy policy, the student will not be able to access and use the database. In these circumstances students should contact their lecturer to enquire about alternative arrangements that are available.

SUPPORT FOR STUDENTS
The University offers a number of support services for students. Information on these is available online from http://students.anu.edu.au/studentlife/
