at the ANU College of Business and Economics

We are proud to be part of the Australian National University, which is the nation’s finest university. Our unique mission, as the national university, is to address major issues of national and international importance through our research and teaching. We take that mission very seriously.

Our focus, within the College of Business and Economics (CBE), is on developing leaders who transform business, society and economies.

The strength of our international reputation attracts exceptional students from Australia, the wider Asia-Pacific region and beyond. We offer every student the opportunity to develop their strengths and the space to decide how they will make their future mark in the world.

Our undergraduate degree programs cover a wide spectrum of subject areas within business and economics. Students have great flexibility in their study options, and can study most of our degrees as part of a combined program with other degrees, either within the college or elsewhere at ANU.

Supported by a dynamic team of academic and professional staff, students are offered a full suite of engaged learning opportunities to increase their employability and globalise their education experience.

Through their studies, our graduates gain the knowledge and skills to lead organisations, develop public policy, create new companies and undertake research. Our alumni can be found in the world’s leading companies, policy agencies and universities.
Real world skills

Across the world, demand for business and economic graduates is escalating in industry, business and government.

Studying at CBE will provide you with skills and attributes that will remain relevant and keep you competitive in the evolving job market.

Examples of CBE Internship Program host organisations

- Optus
- PwC
- National Australia Bank
- Australian Chamber of Commerce & Industry
- BAE Systems

PROFESSIONAL ACCREDITATION

The education program requirements of the Actuaries Institute in Australia are being reviewed and changes will commence in 2019. Please refer to the Actuaries Institute website for information about the education program changes and the requirements to become an Associate and Fellow of the Actuaries Institute.

For information about ANU's accreditation agreement with the Actuaries Institute, visit:

www.cbe.anu.edu.au/about/professional-organisations-accreditation/actuaries-institute-australia/exemption-policy
BACHELOR OF BUSINESS ADMINISTRATION

The Bachelor of Business Administration develops students' leadership and management skills.

ANU program code: 3410  UAC code: 133003  CRICOS code: 062745A  Duration: three years full-time

STRUCTURE

The program consists of 24 courses, of which:

> a maximum of 10 courses can be taken at level 1000 (first-year classes)
> a minimum of 14 courses must be taken at levels 2000 and 3000 (second- and third-year classes).

The 24 courses must include:

> the following 11 compulsory courses:
  - Business Reporting & Analysis
  - Microeconomics 1
  - Macroeconomics 1 or Economics 1(H)
  - Management, People & Organisations
  - Communication for Business
  - International Business
  - Human Resource Management & Strategy
  - Marketing
  - Corporate Strategy
  - Leadership
  - Entrepreneurship & Innovation
> a minimum of one of the following two core courses:
  - Business Decision Making
  - Quantitative Research Methods
> four elective courses from within the ANU College of Business and Economics
> eight elective courses, which can be taken from any ANU college.

Note: Students intending to take electives in Marketing Research should note that the course Marketing Research has Quantitative Research Methods as a prerequisite.

CAREER OPTIONS

The Bachelor of Business Administration provides a comprehensive grounding in the key business skills that are essential in any workplace. With its focus on developing leadership and management skills, graduates of the program will be well-equipped to take up management and senior administrative positions in both the public and private sectors. Additionally, with its broad coverage of the different components of business and management, the Bachelor of Business Administration provides an ideal foundation for careers in human resources, communications, marketing and business strategy.

Graduates gain a good understanding of the innovation and entrepreneurship essential to creating new commercial ventures and developing existing businesses.

BACHELOR OF COMMERCE

The Bachelor of Commerce includes courses in core areas such as business reporting, economics, quantitative methods and techniques, and communication for business.

ANU program code: 3400  UAC code: 133003  CRICOS code: 002289F  Duration: three years full-time

STRUCTURE

The program consists of 24 courses, of which:

> a maximum of 10 courses can be taken at level 1000 (first-year classes)
> a minimum of 14 courses must be taken from levels 2000 and 3000 (second- and third-year classes).

The 24 courses must include:

> the four courses that comprise the minor in Business and Economics Essentials*
> one compulsory course: Communication for Business
> eight elective courses, which can be taken from any ANU college.

* The minor in Business and Economics Essentials comprises the core courses, Business Reporting & Analysis, Microeconomics 1, Macroeconomics 1 and Quantitative Research Methods. As a core part of the program, the minor will not be listed on transcripts for students completing the Bachelor of Commerce.

** The major in Information Technology is not available for students in the Bachelor of Commerce/Bachelor of Information Technology and Bachelor of Commerce/Bachelor of Software Engineering combined degree programs.

CAREER OPTIONS

With its combination of core business courses and major specialisations, the Bachelor of Commerce provides an ideal springboard for careers in the private or public sectors.

Depending on your chosen major, you could work in the following areas after graduating with a Bachelor of Commerce:

> Accounting: business analysis, management accounting, public accounting, company accounting, auditing
> Business information systems: consultant or business analyst, database administrator, system analyst or architect, programming and other professional careers in ICT
> Corporate sustainability: sustainable development manager, ethical supply chains, corporate social responsibility consultant, or corporate sustainability communications
> Economic studies: economics, financial markets, government policy, investment banking, consulting and business administration
> Finance: financial trader, broker, analyst, statistician, corporate treasurer, financial consultant or financial planner
> International business: international trade, global sourcing, import/ export and supply chain management, or business specialist for a multinational corporation
> Management: human resources, recruitment, business consulting, business analysis
> Marketing: marketing research, marketing communications, advertising and sales, business development.

PROFESSIONAL ACCREDITATION

Students taking majors in Accounting (with the sequence of courses required by the professional accounting bodies) or Business Information Systems can qualify for membership of the relevant professional bodies through their sequence of study. For more information, see the descriptions of the Accounting and Business Information Systems majors on the following pages.
ACCOUNTING MAJOR

Accounting is concerned with the measurement, analysis, reporting and evaluation of information, which assists in the management of resources in business entities and government organisations.

If you see yourself as a financial officer, auditor, tax accountant, or management accountant, the accounting major equips you with the knowledge and skills to start you on that path.

This major requires the completion of eight courses including:

- the following four compulsory courses:
  - Accounting Processes & Systems
  - Management Accounting
  - Company Accounting
  - Accounting Theory
- two core courses from the following list:
  - Public Sector Accounting
  - Financial Reporting by Corporations
  - Corporate Social Responsibility, Accountability & Reporting
  - Auditing
  - Advanced Management Accounting
  - Management Accounting
  - Quantitative Research Methods
- one core course from the following list:
  - Advanced Management Accounting
  - Principles of Tax Law
  - Corporate Social Responsibility, Accountability & Reporting
  - Financial Statement Analysis
  - Accounting Analytics.

Students in the combined program with Law should note they cannot take the courses Principles of Tax Law, Corporate Social Responsibility, Accountability & Reporting.

Students in the combined program with Law should note they cannot take the courses Principles of Tax Law, Corporate Social Responsibility, Accountability & Reporting.

PROFESSIONAL ACCREDITATION

A student undertaking the Accounting major can take a few additional courses in order to meet tertiary education requirements for direct entry into the professional programs of the accounting bodies in Australia. Students wishing to discuss the necessary sequence should contact the college office for details or refer to:

www.cbe.anu.edu.au/about/professional-organisations-accreditation

BUSINESS INFORMATION SYSTEMS MAJOR

The major in Business Information Systems is about the study of business information and its production, flows and usage within organisations. It encompasses both manual activities and those involving computing and telecommunications.

This major cannot be counted towards the Bachelor of Commerce component of the Bachelor of Commerce/Bachelor of Information Technology and Bachelor of Commerce/Bachelor of Software Engineering combined degree programs.

This major requires the completion of eight courses, which must include:

- the following four compulsory courses:
  - Relational Databases
  - Business Information Systems
  - Information Systems Analysis
  - Information Systems Management
- one core course from the following:
  - Introduction to Programming & Algorithms
  - Web Development & Design
- three core courses from the following list:
  - Networked Information Systems
  - Information Technology in Electronic Commerce
  - Advanced Databases & Data Mining
  - Accounting Information Systems
  - Enterprise Systems in Business
  - Project Management & Information Systems.

Students in the combined program with Law should note they cannot take the courses Introduction to Commercial Law, Law of Business Entities, and Principles of Tax Law towards the requirements of the Accounting major. If they have undertaken equivalent courses in the ANU College of Law.

The internship I took through CBE has definitely made me job ready. It’s made me really excited to get out there and experience the real-world work environment.

Megan Stokes
Bachelor of Economics/Commerce
Intern with CHC Affordable Housing, Canberra, Sydney, Australia

"The internship I took through CBE has definitely made me job ready. It’s made me really excited to get out there and experience the real-world work environment."
CORPORATE SUSTAINABILITY MAJOR

The major in Corporate Sustainability examines the increasing constraints placed on business by both the natural environment and society, and how corporations create long-term value through innovative responses to these constraints. It is multidisciplinary, drawing together insights from management, marketing, accounting, economics, environmental science, law, politics and philosophy.

STRUCTURE

This major requires the completion of eight courses, which must include:

- three core courses from the following list (if not already completed towards the requirements of the major):
  - Resource & Environmental Economics (P) or Resource & Environmental Economics (H)
  - Human Ecology or Society & Environmental Change or Climate Change Science & Policy or Environmental Policy
  - Human Futures or Climate Change Science & Policy in Practice
  - Law & the Environment
  - Negotiation
  - Managing Organisational Change
  - Business Ethics
  - Business & the Natural Environment
  - Business & its Social Stakeholders
  - Social Marketing
  - Sustainable Marketing
  - Sustainability, System & Agency
  - Development & Change
  - Australian National Internships Program.

Note: Some courses have the completion of four courses listed as a prerequisite.

CAREER OPTIONS

The aim of the major in Finance is to develop skills and competencies in students that will enable them to embark upon a professional career in the fields of financial management, financial consulting and planning, funds management, investment banking and stockbroking.

“...I wanted to move away, be my own person, find my strengths, be bold, travel, experience living in a foreign country, interact with international people and do everything on my own. So I decided to come to ANU. “

Palak Bhatia
Bachelor of Accounting India
ECONOMIC STUDIES MAJOR

The major in Economic Studies introduces students to the core concepts and techniques used in economic analysis with applications to a wide variety of issues, including economic development, public policy, macroeconomic forecasting, the design of financial contracts and industrial strategy. It is an exciting and broad-ranging major which offers insight into the ways that individuals make decisions and interact, the ways that businesses are structured and compete, and the role of government in economic activity.

INTERNATIONAL BUSINESS MAJOR

The major in International Business combines concepts from many disciplines to analyse the principal issues and considerations in the growth and functioning of international business organisations and activities.

STRUCTURE

This major requires the completion of eight courses, which must include:

- four core courses from the following list:
  - Microeconomics 1
  - Macroeconomics 1
  - Economics 1
  - Microeconomics 2
  - Macroeconomics 2
  - Economics 2
- one core course from the following list:
  - Microeconomics 3
  - Macroeconomics 3
- three core courses from the following list:
  - The Australian Economy: Past & Present
  - History of Economic Thought
  - The World Economy Since 1800
  - Japanese Economy & Economic Policy
  - Labour Economics & Industrial Relations
  - Behavioral Economics
  - Managerial Economics
  - Money & Banking
  - The Economy, Politics & the State
  - Law & Economics
  - Resource & Environmental Economics
  - Public Sector Economics
  - Cost-Benefit Analysis
  - Strategic Thinking: An Introduction to Game Theory
  - Development, Poverty & Famine
  - Financial Economics
  - Southeast Asian Economic Policy & Development
  - International Economics
  - Economic Policy Issues
  - Political Economy of Macroeconomic Policy
  - Industrial Organisation
  - Microeconomics 3
  - Macroeconomics 3
  - Game Theory
  - Foundations of Economic & Financial Models
  - Economics of Emerging Asia
  - Global Business Immersion
  - Dynamics of European Business
  - International Marketing
  - International Business
  - Cross-Cultural Management
  - International Supply Chain Management
  - Negotiation
  - Career Planning & Management
  - International Human Resource Management
  - Australian National Internships Program.

Melbourne, Australia
### MANAGEMENT MAJOR

The major in Management incorporates disciplines to analyse the principal issues and considerations in business.

**STRUCTURE**

This major requires the completion of eight courses, including:

- the following four compulsory courses:
  - Management, People & Organisations
  - Organisational Behaviour
  - Human Resource Management & Strategy
  - Corporate Strategy

- one core course from the following:
  - Leadership
  - Entrepreneurship & Innovation

- three core courses from the following list (if not already completed towards the requirements of the major):
  - Cross-Cultural Management
  - Global Business Immersion
  - Labour Economics & Industrial Relations (P) or Labour Economics & Industrial Relations (H)
  - Corporate Sustainability
  - Employment Relations
  - Negotiation
  - Career Planning & Management
  - Managing Organisational Change

- Techniques for Business Project Management
- Business Ethics
- Leadership
- International Human Resource Management & Entrepreneurship & Innovation
- Australian National Internships Program.

### MARKETING MAJOR

The major in Marketing combines aspects of economics, commerce, psychology, sociology and statistical analysis in the assessment of market behaviour and the development of appropriate business responses.

**STRUCTURE**

This major requires the completion of eight courses, which must include:

- the following four compulsory courses:
  - Marketing Research
  - Marketing
  - Consumer Behaviour
  - Strategic Marketing

- four core courses from the following list:
  - International Marketing
  - Global Business Immersion
  - Services Marketing
  - Sustainable Marketing
  - Marketing for Financial Services
  - E-Marketing
  - Advertising
  - Social Marketing
  - Entrepreneurship & Innovation
  - Regression Modelling
  - Advanced Marketing Research Methods or Generalised Linear Modelling
  - Services Marketing
  - Australian National Internships Program.

"I chose to study at ANU because of its exceptional reputation, modern facilities and highly qualified teachers. The environment at ANU is one that stimulates intellectual curiosity and inspires students to aim for excellence."

Alex Dalczynski
Bachelor of Law (Honours)/Commerce
Canberra, Australia
BACHELOR OF ECONOMICS

The Bachelor of Economics program offers rigorous training in analytic tools, providing a better understanding of a wide variety of topical policy issues.

ANU program code: 3200  UAC code: 134003  CRICOS code: 002293B  Duration: three years full-time

STRUCTURE

The program consists of 24 courses, of which:
- a maximum of 10 courses can be taken at level 1000 (first-year classes)
- a minimum of 14 courses must come from levels 2000 and 3000 (second- and third-year classes).

The 24 courses must include:
- the following nine compulsory courses:
  - Microeconomics 1
  - Macroeconomics 1
  - Foundations of Economic & Financial Models
  - Behavioral Economics
  - Managerial Economics
  - Quantitative Research Methods
  - Macroeconomics 2
  - Microeconomics 2 or Economics 2(H)
  - Econometrics 1: Econometric Methods

> one course from the following list:
  - The Australian Economy: Past & Present
  - History of Economic Thought
  - The World Economy Since 1850

> three courses from List 1 of the ANU College of Business and Economics

> eight elective courses, which can be taken from any ANU college.

CAREER OPTIONS

The Bachelor of Economics provides a platform for a wide variety of careers across the public and private sectors.

Economists play a crucial role in public policy, and are much in demand in many government departments and corporate organisations. There are also many opportunities for economists in international agencies, in areas such as global economic analysis, development, resource management and the environment.

Many firms employ economists to help understand the wider business environment and guide their business development strategies.

Consultancy and accounting firms also employ economists to help guide their clients. Financial institutions including banks, and in particular the Reserve Bank of Australia, actively recruit economists to advise them on the state of the economy and on risks from factors such as interest rate changes and exchange rate movements.

There is also a thriving national and international market for academic economists in high schools, colleges and universities.

I chose ANU because my flexible double degree allowed me to combine my interests, and I wanted to study at a university that is surrounded by national institutions. This is currently my fourth year on campus, and living here whilst studying has really enhanced my university experience.

Alma Jovanovic
Bachelor of Laws (Honours)/Commerce
Perth, Australia

BACHELOR OF FINANCE

The Bachelor of Finance is a specialised program offering rigorous training in the theory and applications of finance.

ANU program code: 3408  UAC code: 133203  CRICOS code: 039746C  Duration: three years full-time

STRUCTURE

The program consists of 24 courses, of which:
- a maximum of 10 courses can be taken at level 1000 (first-year classes)
- a minimum of 14 courses must come from levels 2000 and 3000 (second- and third-year classes).

The 24 courses must include:
- six compulsory courses:
  - Business Reporting & Analysis
  - Microeconomics 1
  - Macroeconomics 1 or Economics 1(H)
  - Foundations of Finance
  - Quantitative Research Methods
  - Microeconomics 2

> one core course from the following list:
  - Foundations of Economic & Financial Models
  - Marketing for Financial Services
  - Financial Mathematics

> an eight-course major from the following:
  - Money & Banking
  - The Economy, Politics & the State
  - Law & Economics
  - Strategic Thinking: An Introduction to Game Theory
  - Development, Poverty & Famine

> three elective courses from List 1 of the ANU College of Business and Economics

> eight elective courses, which can be taken from the ANU College of Business and Economics or any other ANU college.

TYPICAL FULL-TIME PATTERN OF STUDY

Finance has applications in many fields including banking, financial consulting and planning, funds management, merchant banking, stockbroking and treasury.

Possible jobs for finance graduates include: financial trader or broker; financial manager or analyst; mathematical statistician; corporate treasurer; operations manager; financial consultant; and financial planner.

QUANTITATIVE FINANCE MAJOR

The major in Quantitative Finance builds skills in the concepts and techniques required for statistical analysis and modelling, risk management, model calibration, and derivatives pricing in the financial market.

Students develop competency in both the theory and the implementation.

The analytic skills obtained are highly beneficial for a career in a hedge fund, funds management, derivatives trading and sales, risk management or consulting.

This major requires the completion of eight compulsory courses:

- Corporate Finance
- Derivatives
- Investments
- Continuous Time Finance
- Advanced Derivatives Pricing & Applications
- Introductory Mathematical Statistics
- Regression Modelling
- Introduction to Stochastic Processes.

* The Finance core course must be chosen from Foundations of Economic & Financial Models, Marketing for Financial Services or Financial Mathematics.

** Students may not take both a major in Asian Capital Markets and in Capital Markets.

The Bachelor of Finance with the Capital Markets major is recognised as a CFA Program Partner by the CFA Institute.

CAPITAL MARKETS MAJOR**

The major in Capital Markets applies the basic concepts introduced in the core Finance course, Foundations of Finance, to study financial decisions facing the firm; investment decisions and portfolio management; derivatives and risk management; portfolio construction; corporate valuation; and debt markets.

The major in Capital Markets develops skills and competencies in students that will enable them to embark upon a professional career in corporate financial management, financial consulting and planning, funds management, investment banking and stockbroking.

This major consists of eight compulsory courses:

- Corporate Finance
- Derivatives
- Investments
- Corporate Valuation
- Financial Intermediation & Debt Markets
- Corporate Strategy
- Regression Modelling.

ASIAN CAPITAL MARKETS MAJOR**

The major in Asian Capital Markets is designed for students who want to specialise their study of finance within the Asian region. Students in this major can spend one semester of study at a university within the Asian region, giving them invaluable exposure to the study and practice of finance within Asia. This major is aimed at students who are keen to equip themselves with a program that will prepare them to excel in the Asian financial marketplace.

The major requires the completion of eight compulsory courses, including:

- Corporate Finance
- Derivatives
- Investments
- Regression Modelling

AND either:

- four courses (24 units) from an approved university exchange partner in Asia
- OR:
  - Corporation Valuation
  - Financial Intermediation & Debt Markets
  - Portfolio Construction
  - Asian Capital Markets.

The Bachelor of Finance with a major in Asian Capital Markets is recognised as a CFA Program Partner by the CFA Institute.

BACHELOR OF FINANCE, ECONOMICS AND STATISTICS (HONOURS)

The Bachelor of Finance, Economics and Statistics (Honours) is an elite four-year honours program that integrates the three disciplines to foster a deep understanding of all three of these fields.

ANU program code: 4405 UAC code: 134300 CRICOS code: 09822G Duration: four years full-time (commences in Semester 1 only)

STRUCTURE

The program consists of 32 courses, of which:

- a maximum of 10 courses can be taken at level 1000 (first-year classes)
- 21 courses must include the following compulsory courses:
  - Business Reporting & Analysis
  - Economics 1 Honours or Macroeconomics 1
  - Microeconomics 1
  - Microeconomics 2
  - Game Theory (Honours)
  - Economics 2 (Honours)
  - Economics 3 (Honours)
  - Microeconomics 3
  - Macroeconomics 3
  - Econometrics 1: Econometric Methods
  - Foundations of Finance
  - Corporate Finance
- one course from the following list:
  - Derivatives
  - Investments
  - Corporate Valuation
  - Quantitative Research Methods
  - Advanced Mathematics & Applications 1
  - Advanced Mathematics & Applications 2
  - Introductory Mathematical Statistics
  - Statistical Inference
  - Advanced Mathematical Statistics
- one course with an ECON code
- see programsandcourses.anu.edu.au for the full list of ECON courses
- an honours program in Finance, Economics or Statistics must be completed.

Note: Students must achieve a minimum 75% weighted average mark in the first three years of their program to continue to the honours year. Students who do not achieve a minimum of 75% weighted average mark in the first three years will be transferred to a Bachelor of Economics.

CAREER OPTIONS

Unique in its joint emphases on Finance, Economics and Statistics, this program will prepare graduates for a career in any field that values a rigorous, research-led, quantitative education. Graduates of this elite program will be highly sought after by government and industry for their ability to foster a deep understanding of all three of these fields.

ANU College of Business & Economics

30 ANU College of Business & Economics

ANU College of Business & Economics

2019 Undergraduate Guide 31
ANU College of Business & Economics

This is a unique and challenging program for elite students combining the expertise of two institutions of high international standing: ANU in Canberra and the National University of Singapore.

Jointly offered with the National University of Singapore (NUS)
ANU program code: 4444 UAC code: 134454 CRICOS code: 050591E Duration: three years full-time

The program information below is current for students commencing in 2018. The Bachelor of Social Sciences is being redeveloped for 2019 because of changes to the Actuaries Institute education program. The information below will be updated once the program changes for 2019 are finalised.

Please refer to the Actuaries Institute website for information about the education program changes and the requirements to become an Associate and Fellow of the Actuaries Institute. For information about ANU's accreditation agreement with the Actuaries Institute, visit: cbe.anu.edu.au/about/professional-organisations-accreditation/actuaries-institute-australia/exemption-policy

BACHELOR OF SOCIAL SCIENCES (HONOURS IN ACTUARIAL STUDIES AND ECONOMICS)

The Bachelor of Social Sciences (Honours in Actuarial Studies and Economics) is a three-year full-time program that prepares graduates to be top reinsurers in the world and is about unlocking your potential and dreaming big.

Stacey Lin
Bachelor of Actuarial Studies/Statistics
China

ANU is an amazing research-led university where you learn fundamental knowledge that prepares you for the workforce. I have amazing lecturers who are very interested in the topics they teach; they can help with connecting classroom knowledge to the real world. If you want a really good education then come to ANU.

Grover Lin
Bachelor of Economics/Actuarial Studies
New Zealand

BACHELOR OF STATISTICS

The Bachelor of Statistics offers a rigorous program of training in the theory and application of statistics.

ANU program code: 3407 UAC code: 134200 CRICOS code: 061240A Duration: three years full-time

STRUCTURE

The program consists of 24 courses, of which:

- a maximum of 10 courses can be taken at level 1000 (first-year classes)
- one introductory Statistics course from the following list:
  - Regression Modelling
  - Introduction to Stochastic Processes
- one introductory Statistics course from the following list:
  - Applied Statistics
  - Probability & Stochastic Processes
  - Statistical Data Analysis
  - Theoretical Statistics
- the following three compulsory courses:
  - Introductory Mathematical Statistics
  - Regression Modelling
  - Introduction to Stochastic Processes
- two introductory Mathematics courses from the following list:
  - Mathematics & Applications 1
  - Mathematics & Applications 2
  - Mathematics & Applications 3
  - Mathematics & Applications 4

The 24 courses must include:

- eight courses from the completion of one of the following Statistics majors:
  - Theoretical Statistics
  - Statistical Data Analytics
  - Applied Statistics

The 24 courses must also include:

- one core course from the following list:
  - Introduction to Programming & Algorithms
  - The Craft of Computing
- one introductory Mathematics course from the following list:
- one core Mathematics course from the following list:
  - Games, Graphs & Machines
  - Scientific Computing
- eight elective courses, which can be taken from any ANU college.

CAREER OPTIONS

An ability to understand, analyse and draw insights from statistical data has become an ever more valuable skill in the modern world.

Graduates of the Bachelor of Statistics will be well prepared for careers in many areas including:

- applied research, for example market research
- academic research, particularly in the social sciences
- the public sector, which employs statisticians to assist with policy and program development and evaluation
- finance and banking sectors, as a business analyst.

Studying at ANU is about unlocking your potential and dreaming big. I would have never imagined that I would volunteer in the Czech Republic, work as a part-time analyst, complete a summer course at London School of Economics, intern with the top reinsurer in the world and complete an honours thesis.

APPLIED STATISTICS MAJOR

As John Naisbett said of modern society, “we are drowning in information but starved for knowledge”. One of the most in-demand roles these days is that of applied statistician—the key person essential for decision-making and for understanding our data-driven world. In this major, you will learn to understand and use a wide array of statistical modelling techniques that will empower you to make sense of data and offer insights to a wide variety of disciplines, from archaeology to zoology and almost everything in between.

If there are data, there is a need for applied statistics.

**STRUCTURE**

This major requires the completion of 48 units, which must consist of:

- 24 units from completion of the following compulsory courses:
  - Graphical Data Analysis
  - Design of Experiments & Surveys
  - Generalised Linear Modelling
  - Survival Models

- six units from completion of courses from the following list:
  - Applied Statistics
  - Introduction to Programming & Algorithms

- 6 units from completion of courses from the subject area Econometrics (EMET)

- 12 units from completion of further courses from the subject area Statistics (STAT).

- Six units from completion of courses from the following list:
  - Applied Statistics
  - Introduction to Bayesian Data Analysis

- 12 units from completion of courses from the subject area Econometrics (EMET)

- 6 units from completion of courses from the subject area Statistics (STAT).

**TYPICAL FULL-TIME PATTERN OF STUDY**

PROBABILITY AND STOCHASTIC PROCESSES MAJOR

Variability, randomness, risk, and related attributes characterise most measurable phenomena in the real world. Probability and Stochastic Processes are concerned with random phenomena occurring dynamically in time or space, or both. They play a critical role in the theory and methods of a wide range of physical, medical, engineering and social sciences, and many others. A good understanding of probability is essential for the study of Statistics. Probability theory is both mathematically elegant and remarkably practical, and the distinction it makes between deterministic and stochastic modelling is fundamental to real-world applications, especially in the areas of insurance risk, genetics and evolutionary biology, climatology, epidemiology, criminology, time series modelling and forecasting, signal processing and detection, and derivatives pricing and financial mathematics.

**STRUCTURE**

This major requires the completion of 48 units, which must include:

- 12 units from completion of the following compulsory courses:
  - Stochastic Modelling
  - Advanced Stochastic Processes

- 6 units from completion of courses from the following list:
  - Mathematics of Finance
  - Probability Modelling with Applications

- 24 units from completion of the following mathematical statistics courses:
  - Applied Mathematics 1
  - Applied Mathematics 2
  - Statistical Inference
  - Advanced Mathematical Statistics

- Either:
  - 24 units from completion of the following mathematical analysis courses:
    - Advanced Analysis 1: Metric Spaces & Applications
    - Advanced Analysis 2: Topology, Lebesgue Integration & Hilbert Spaces
    - Big Data Statistics

- Or:
  - 18 units from completion of the following mathematical analysis courses:
  - Advanced Analysis 1: Metric Spaces & Applications
  - Advanced Analysis 2: Topology, Lebesgue Integration & Hilbert Spaces
  - Big Data Statistics

- 6 units from completion of courses from the subject area Statistics (STAT).

### THEORETICAL STATISTICS MAJOR

The Theoretical Statistics major provides the mathematical underpinnings of modern statistical practices of estimation, inference and prediction. The major explores both classical approaches to estimation and testing, such as maximum likelihood and the frequentist approach, as well as Bayesian methods that have become ubiquitous parts of modern data analysis. This major covers the theory needed to understand statistical modelling through a variety of lenses: parametric, non-parametric, large-sample theory, small-sample behaviour, robustness, and the use of prior information.

#### STRUCTURE

This major requires the completion of 48 units, which must include:
- 24 units from completion of the following compulsory courses:
  - Business and Economic Forecasting
  - Statistical Inference
  - Introduction to Bayesian Data Analysis
  - Advanced Mathematical Statistics
- 6 units from completion of 2000-level courses from the subject area Mathematics (MATH)
- 18 units from completion of further courses from the subject area Statistics (STAT)

#### TYPICAL FULL-TIME PATTERN OF STUDY

The small class sizes have been a really positive aspect of my ANU experience. It’s meant that I’ve had much greater personal contact with my tutors and academics, and they are much more able to take a genuine interest in my learning.

### STATISTICAL DATA ANALYTICS MAJOR

Statistics is data science. Through this major, you will learn the tools that will empower the next generation of artificial intelligence, scientific inquiry, and predictive analytics for business and government. It will open you up to the exciting world of data science that is driving significant innovation in the world of start-ups and disrupting the socio-economic landscape. This program will give you a rigorous mathematical and computational foundation in the areas of statistical learning (a.k.a. machine learning), high-dimensional statistics, data visualisation, and the Bayesian approach that will help you build sophisticated models that capture the uncertainty in the world we live in.

#### STRUCTURE

This major requires the completion of 48 units, which must consist of:
- 30 units from completion of the following compulsory courses:
  - Graphical Data Analysis
  - Generalised Linear Modelling
  - Introduction to Bayesian Data Analysis
- 12 units from completion of Computer Science courses from the following list:
  - Introduction to Programming & Algorithms
- 6 units from completion of further courses from the subject area Statistics (STAT)

ANU is more than just a collection of world rankings, program offerings and campus events. Most importantly, ANU is a place to belong.

Finding your place outside of the classroom will become a really important part of your university experience.

But don’t worry, we have you covered.

At ANU, there are more than 200 student clubs and societies and 65 student associations, which means there is something for everyone.

ANU also has an array of student services that extend beyond the lecture halls and tutorial rooms to help make you feel at home.

**ANU student support services**

- Academic Skills and Learning Centre
- Tjabal Indigenous Higher Education Centre
- Access and Inclusion
- ANU Health Service
- SET4ANU peer-to-peer mentoring
- ANU Counselling Centre
- ANU Careers and CareerHub
Scholarships

The ANU College of Business and Economics is committed to supporting talented students and offers a number of college-specific scholarships available to both Australian and international students.

The table below summarises the scholarships offered by the college for undergraduate students.

For more information about these scholarships, and how to apply, visit the college’s scholarships web page: cbe.anu.edu.au/scholarships

There are also many ANU-wide scholarships on offer. For more information about university-administered awards, visit the ANU scholarships page at: students.anu.edu.au/scholarships/ug

I’ve never considered myself as a scholar, but this scholarship proves that nothing is beyond reach if given the chance. I am extremely grateful for this opportunity.

Vernon Mah
International Undergraduate Scholarship 2017
Welcome to your new home

Accommodation guarantee

We guarantee accommodation to interstate domestic students and international students who:

- receive and accept their offer to study at ANU within the advertised dates
- apply for accommodation before the closing date for each application round
- are in their first year of study at ANU, starting in their first semester, whether that is Semester 1 or 2.
- are enrolled full-time.

ANU has 11 different residences for undergraduate students. You can nominate a fully catered, self-catered or apartment-style residence. All have laundry facilities, outdoor spaces and study rooms, and are within easy walking distance to shops, cafes, restaurants, sporting facilities, nightlife and public transport.

Please note:

Some halls, colleges and lodges charge extra for phone, internet connections and other services. The fees listed in the table are for 2019 and are subject to change. Go to anu.edu.au/study/accommodation for updates on current fees and any other costs involved. All figures in this table are in Australian dollars.
**How to apply**

**DOMESTIC STUDENTS**

You are a domestic applicant if you:

- are an Australian or New Zealand citizen
- hold an Australian Permanent Residency Visa
- hold an Australian Humanitarian Visa.

If none of these criteria apply, then you are an international student.

1. **Apply through UAC**
   - Submit your application through the Universities Admissions Centre (UAC) at uac.edu.au. Applications open early August. Aim to get your application in by the last Friday in September to avoid late fees. You can change your preferences before each offer round.

2. **Check entry requirements and choose preferences**
   - Check the entry requirements for each of your preferences to see if there are any additional selection criteria.
   - Add preferences for similar degrees with lower entry requirements as your backup plan and check bonus points information. If you need advice about the order of your preferences, contact ANU on 02 6125 5594 or visit the UAC website at uac.edu.au.
   - If you are not sure that you will get the selection rank you need, or you don’t have an assessable qualification, you can also check out our alternative entry pathways via ANU College (anucollege.edu.au).

**INTERNATIONAL STUDENTS**

1. **Check the program entry requirements and your eligibility to apply**
   - Visit the Programs and Courses website for program requirements and eligibility and the English language requirement at programsandcourses.anu.edu.au.

2. **Submit your application**
   - As an international student, you can submit your application either:
     - directly online at student-anustudylink.com
     - through an authorised agent or
     - through UAC International at uac.edu.au/international.

3. **Accept your offer**
   - Meet all conditions of your offer letter (if applicable).
   - Return the completed Acceptance Declaration, Payment Advice and Financial Declaration Form to the Admissions Office via email to acceptance@anu.edu.au.
   - Your electronic Confirmation of Enrolment will be processed within 10 working days of your payment being finalised and receipt of your correctly completed Acceptance Declaration, Payment Advice and Financial Declaration Form.

**Important dates for 2018 Year 12 students**

**Semester 1, 2019**

- Applications open at the start of August 2018

**Semester 2, 2019**

- Application closing date 31 May 2019
- Acceptance/deposit deadline - 15 June 2019 (offshore students)
- 31 June 2019 (onshore students)

**Understanding preferences**

When you apply through UAC, you are able to select up to five preferences as a domestic student. You can change the order of this list at any time until the last change of preference date before an offer round.

There are usually a few days after you have received your results to change your preferences if you need to.

Put the degree you would most like to do first, then the degree you would next like to do if you don’t receive an offer to the first degree, and so on. Applicants are considered in preference order and will be offered their first eligible preference only.

[uac.edu.au/international](http://uac.edu.au/international)

---

**English language requirements**

**You must provide evidence of English language proficiency required for admission to ANU.**

You may meet this requirement if your tertiary studies were entirely taught and assessed in English during the past two years.

If you are an international student and you completed your English studies more than two years ago, you will need to provide an English proficiency test certificate, such as the International English Language Testing System (IELTS) or the Test of English as a Foreign Language (TOEFL).

**English language preparation**

The ANU Access English program is a 10-week course offered by ANU College. The course runs four times a year and is designed so that you can finish the course in time to start your studies at ANU. You must already have an IELTS (or recognised equivalent) score of 6.0, with a minimum score of 5.5 in all bands, to gain entry to the course. Please note that all Law programs cannot be packaged with the English program. Further details are provided in the table below.

For all information on English language requirements, visit [anu.edu.au/pg/english](http://anu.edu.au/pg/english)

Further details are provided in the table below.
Assumed knowledge and prerequisites

Mathematics prerequisite requirements

Applicants for the programs listed below must satisfy a high mathematics prerequisite, which is a compulsory requirement for admission.

- Bachelor of Actuarial Studies
- ANU/NUS Bachelor of Social Sciences (Honours in Actuarial Studies and Economics)
- Bachelor of Statistics
- Bachelor of Finance, Economics and Statistics (Honours)

| ACT | Specialist Mathematics major/minor (180+)
|-----|----------------------------------|
|     | Recommended: Specialist Mathematics (double major)
| NSW | HSC Mathematics Extension 1 (Band E3) or equivalent
|     | Recommended: Mathematics Extension 2

* Please see uac.edu.au for other state equivalences.

Mathematics assumed knowledge

Unlike a prerequisite, assumed knowledge is not a strict requirement for entry into these programs. However, the courses within the programs listed below are taught on the assumption that students have an appropriate level of mathematical knowledge.

- Bachelor of Accounting
- Bachelor of Commerce
- Bachelor of Economics
- Bachelor of Finance
- Bachelor of International Business

Flexible Vertical Double Degrees

Expand your career options and graduate with two qualifications.

In a Flexible Vertical Double Degree (FVDD) program, you can combine a bachelor degree and a master degree from related disciplines for depth of knowledge and specialist skills; or combine degrees from different disciplines for breadth of knowledge and transferable skills.

These programs offer time and cost savings when compared with studying a bachelor degree and a master degree separately. For more information, visit anu.edu.au/fvdd

Step 1

Choose ANU

- If you’re interested in studying an FVDD program at ANU, then you should identify the FVDD group that meets your interests, strengths and career goals.
- Select your eligible bachelor degree from your preferred group.
- Choose ANU and apply for your eligible bachelor degree through the Universities Admissions Centre (UAC) at uac.edu.au.

For more information, visit anucollege.edu.au/courses/maths.

Step 2

Opt in

- Receive your offer from UAC to study your eligible bachelor degree.
- Accept your offer via the ANU website—there will be instructions in your offer letter.
- Opt in to your FVDD program straight after you enrol, or up until you have completed 72 units of study—it’s up to you.

If you are an international student applying directly to ANU, you will select your bachelor and master degree on application to ensure you receive an offer package to meet electronic confirmation of enrolment and visa requirements.

Step 3

Transition

- Plan your study program at programsandcourses.anu.edu.au.
- Start taking master’s courses at 96 units by achieving the required grade point average (GPA).
- Transition to your master degree at 144 units by maintaining the required GPA during your eligible bachelor degree.

International

If you are an international student applying directly to ANU, you will select your bachelor and master degree on application to ensure you receive an offer package to meet electronic confirmation of enrolment and visa requirements.

Business, Humanities and Social Sciences

4 years full-time

Bachelor options

- Archaeological Practice
- Art History and Curatorship
- Arts
- Asian Studies
- Business Administration
- Classical Studies
- Commerce

Master options

- Archaeological Science
- Culture, Health and Medicine
- Demography
- Diplomacy

Option in and transition

- Entrepreneurship and Innovation
- Environment
- General and Applied Linguistics

Business Administration

- International Management
- International Relations
- Innovation and Professional Practice
- Leadership

Visual Arts

- International Security Studies
- Statistics
- Languages
- Latin American Studies
- Middle Eastern and Central Asian Studies

Politics, Philosophy and Economics

- Music
- Policy Studies
- Political Science
- Politics

Public Health

- Visual Arts

Translation
Adjustment factors can help you get into your dream degree.

ANU allocates National Access Scheme adjustment factors for high achievement in nationally strategic senior secondary subjects and in recognition of difficult circumstances that you may have faced in your studies.

Adjustment factors are considered in accordance with the approved schedules, and maximum adjustment no more than 10 adjustment factors (maximum 5 subject adjustments and maximum 5 equity adjustments) can be allocated. You may be considered for adjustment factors if you have:

- applied through UAC for an eligible ANU Bachelor degree program and
- undertaken Australian Year 12 or the International Baccalaureate and
- achieved a Minimum Selection Rank or equivalent at or above 70 and
- not previously attempted tertiary study.

ANU subject adjustment allocation under the National Access Scheme – Domestic and International Applicants

</tbody>
</table>

1. Scores listed in this table reflect the minimum grade required for subject-based adjustment to be awarded.
2. All ACT subjects must be completed as a Major at minimum, unless specified otherwise. The ACT marks indicated in this schedule are the scaled marks received at the end of Year 12. Refer to the ACT Board of Senior Secondary Studies for information on scaling in the ACT. www.bsss.act.edu.au
3. ACT specialist mathematics must be taken as either a major/minor or double major to be eligible for subject adjustment consideration. This is equivalent to NSW Mathematics Extension 1 or 2. For subject equivalences in other Australian states, refer to the UAC website: www.uac.edu.au/future-applicants/admission-criteria/year-12-qualifications
4. Music AMEB Grade 8* may be completed at any time during or prior to your Year 11 and 12 studies to be eligible for performer adjustment consideration.

Abuse                      Up to 5   H04A-Abuse to applicant, parents or siblings
English language difficulty Up to 3   L01A-ESL/started school in Australia in Year 11 or 12
Personal illness/disability Up to 5   P01A-Disability or long-term medical condition
Refugee status              5           P01A-Refugee status
Severe family disruption    Up to 5   H01A-Death of an immediate family member/caregiver
Excessive family responsibility Up to 5   H02B-Required to work to support family
School environment          Up to 5   S01D-Studying Year 12 subjects by distance education or Access program

For more information refer to uac.edu.au/eas

Subject adjustments
ANU Bachelor degree programs with a minimum requirement of 80.00-98.00 may receive up to five subject adjustments.

Senior secondary students do not need to apply for ANU subject adjustments. They are automatically added in accordance with the schedule. Students with AMEB Grade 8 or higher are required to apply separately to domestic.admissions@anu.edu.au with their certificate.

Equity adjustments
ANU Bachelor degree programs with a minimum requirement of 80.00-98.00 may receive up to 5 equity adjustments. You must refer to uac.edu.au/eas for more information on categories and how to apply.

Elite athlete and performer adjustments
ANU is an Elite Athlete Friendly University. We will provide additional support if you are recognised as an elite athlete by the Australian Sports Commission’s AIS Personal Excellence program.

If you are an elite athlete or sporting coach, you may be eligible for five bonus points. Apply through UAC and submit an Elite Athlete Bonus Point application form to the Office of Access and Inclusion at ANU.

Disclaimer: Correct at time of printing, May 2018.

Adjustment factors are reviewed annually and for the most up-to-date information, please refer to anu.edu.au/study/apply/national-access-scheme or uac.edu.au/atar.
The entry requirement for any Flexible Double Degree™ will be the same as the higher of the two individual degree programs.

When applying, you choose the group from the table below that includes the programs in which you are interested. Subject to the entry requirements and any prerequisites of individual programs, you will then be able to choose any combination of programs from within your chosen group when you accept your offer.

The entry requirement for any Flexible Double Degree™ will be the same as the higher of the two individual degree programs.

Major: An area within a program that allows in-depth study in a particular field. A major usually consists of a set number of related courses. Majors at ANU require 48 units (eight courses).

Elective: An optional area of study selected in addition to the core courses of the program. Electives may allow you to delve more deeply into an area of study, or focus on an alternative area of interest that you may have. Many people will use electives to complete an additional major or minor.

Minor: A minor has fewer requirements to fulfill than a major, in terms of units and compulsory courses. Minors at ANU require 24 units (four courses).

Specialisation: Similar to minors, specialisations are areas of study with their own courses that can be taken in conjunction with a specific related major.

Unit: An indicator of the value of a course—most courses are valued at six units.

1. The university reserves the right to alter or discontinue its programs as required. Please note that not all degrees are available to commence in Semester 2. The scores published should be used as a guide only, and the university may vary these requirements at any time.

2. Acceptable foundation programs: ANU College, Monash, U Melbourne (Tariff 1), U Adelaide, U Sydney, UNSW, U NSW, UQ, UCA, QUT, Deakin, RMU, U Newcastle, U South Pacific, Western Sydney U, U Wollongong, U Tasmania, U Auckland, NCUK (case-by-case). The ANU College of Business and Economics also accepts foundation results from Hamlin U, Shanghai U of Finance and Economics, Tongji U and Xiamen U. Please note that the ANU College of Law and the ANU College of Business and Economics use a different method of calculating the foundation grade average to that shown on the ANU College Transcript of Results.

3. Students completing the International Baccalaureate (IB), both in Australia and overseas, are encouraged to apply through the Universities Admissions Centre (UAC) as they may be eligible for academic bonus points. If students choose to apply directly to ANU instead, they will not be eligible for academic bonus points and are required to nominate ANU to receive their results directly through the International Baccalaureate Organization website.

5. UK General Certificate of Education (GCE) A Levels best 3 or best 4 subjects, whichever provides the higher rank (A1–6, A=5, B=4, C=3, D2=2, E=1). All A-Level exams must be taken in the same academic year, with the exception of one subject which can be from the preceding or following year.

6. Singapore A-Level entry for all programs (except Law) is the total of the best 3 H2 subjects (A=5, B+4, C3=3, D2=2, E1=1) and the best H1 subject (A2=5, B=4, C1=3, D=2). The H1 subject may be content-based, General Paper or Knowledge and Enquiry. Mother tongue may not be included in the calculation. For entry into Bachelor of Laws, entry is determined by the total of the best 2 H2 subjects, the best H1 content-based subject, plus a minimum of B in either General Paper or Knowledge and Enquiry. Mother tongue may not be included in the calculation.

7. Ontario Secondary School Diploma (OSSD) average of best 6 Grade 12 university preparation courses or university-college preparation courses, including English (ENG4U).**

8. Korean College Scholastic Ability Test (CSAT) overall grade is calculated from results in Korean Language, Mathematics and Foreign Language (English) only.

10. Indian School Certificate (ISC) average from marks in English and best 3 externally examined subjects. All India Senior School Certificate (AISSC) total of best 4 externally examined subjects (A1–5, A2=4, B3=3, B4=2, C1–2, C2–1.5, D1–1, D2=0.5).

11. As well as presenting SAT or ACT results, students must also present: US-accredited high diploma with an overall weighted grade point average (GPA) of 3.2 out of 4.0 programs with a Minimum Selection Rank requirement below (A) or weighted GPA of 3.5 out of 4.0 programs with a Minimum Selection Rank requirement of 90%. Students applying for entry to a diploma program require a GPA of at least 2.0 out of 4.0.

12. Gaokao requirements are for tests taken from 2017 onwards. Students who previously sat the Gaokao with different total marks (Shanghai 600, Zhejiang 750) will be assessed using the university’s previous requirements. Please contact the Admissions Office for further information if this applies to you.

** The results listed in this table are the minimum required for consideration. Selection is case-by-case and requires college approval.

o This program is only available for Semester 1 (February) commencement. Any exceptions are at the discretion of the academic college.

• There are a limited number of places available in this program. It can only be commenced in July/August at the National University of Singapore, and offers must be accepted by the preceding January.
