I chose to study at the ANU because I believe it is the best university in Australia, especially in my fields of business and economics. The location, in Canberra, is perfect for study. And the high quality of research, along with the number of academic staff relative to students really sets ANU apart from other institutions.

A world of choice

At ANU, not only do you have a wide range of study options, but you also have great flexibility to tailor your undergraduate degree to suit your needs and interests. You can combine programs, choose from a wide range of majors and minors and take elective courses from across the University.

Our programs

- Bachelor of Accounting (new in 2014)*
- Bachelor of Actuarial Studies
- Bachelor of Business Administration
- Bachelor of Commerce
- Bachelor of Economics
- Bachelor of Finance
- Bachelor of International Business*
- Bachelor of Statistics
- Bachelor of Social Science (Honours in Actuarial Studies and Economics)*

Double programs

Double (or combined) programs provide two degree qualifications for only one additional year of study, allowing you to pursue two areas of interest and broaden your future career options.

In 2014, the introduction of flexible double degrees at ANU means you now have virtually unlimited choice in the program combinations that you can take. See page 29 for a full list of the possible combinations. Although combined degrees mean a longer duration, through an additional year of study, students take the same number of courses per semester as they would in a single program (usually four courses per teaching period for a full time student). Some of the elective options in the individual programs are dropped to make the shorter time-frame possible.

*Please note that the first intake of the new Bachelor of Accounting program in 2014 will be for the single degree only. The Bachelor of International Business can not be combined with any another program. The Bachelor of Social Science (Honours in Actuarial Studies and Economics) is already a combined program, offered in conjunction with the National University of Singapore.

Majors and minors

Majors and minors allow you to select an integrated sequence of study from your elective courses. Students of an ANU College of Business and Economics degree program can select majors and minors from within the College or elsewhere in the University.

Eight course majors form an integral part of two of our programs: the Bachelor of Commerce and the Bachelor of Finance, however a major can also be taken as a sequence of electives as part of another program. Majors are always included in your academic transcript.
Majors in the Bachelor of Commerce
> Accounting
> Business Information Systems
> Corporate Sustainability
> Finance
> International Business
> Management
> Marketing
See pages 14-17 for more details.

Majors in the Bachelor of Finance
> Capital Markets
> Quantitative Finance
See page 21 for more details.
Please note: majors may not be available to students studying a double degree, due to the smaller number of elective courses available in a dual program.

Minors
Four course minors give students a further option to select a short sequence of elective courses in a specific area of study. Minors offered by the ANU College of Business and Economics include:
> Advanced Accounting
> Business and Economics Essentials*
> Business Law and Professional Ethics
> Corporate Sustainability
> Econometrics
> Economic History
> Finance
> International Business
> Introductory Accounting
> Management
> Marketing
> Market Research
> Project Management
> Strategy, Behaviour and Economics
Minors are stated on your academic transcript. Please note, however, that the Business and Economics Essentials minor is a mandatory component of several degrees, and will not be included on your transcript in those instances.

The Honours year
The Honours year is an opportunity for high-performing students to build on their undergraduate program with more in-depth study. It is an additional year of full-time study, usually combining coursework with a research thesis component, which provides an excellent grounding for students wishing to progress to higher degree research.
It is also an additional level of study looked upon favourably by many employers and can provide a boost to your career prospects. Students undertaking the Bachelor of Actuarial Studies can meet the Part II professional requirements of the Actuaries Institute by continuing to the Honours year (see page 9 for more details).
Students interested in doing Honours are advised to talk to staff at the College office early in their program for advice on course selection and preparation for the Honours year.
If you already have a bachelor degree from another institution you can apply to transfer to the Honours year at ANU.
For more information about the Honours program visit: cbe.anu.edu.au/cbe/future-students/honours

Exchange opportunities
Through the ANU Student Mobility Program students have the opportunity to spend a period of their study overseas at one of our many partner institutions around the world. Study undertaken abroad is credited towards your ANU degree allowing you to complete your studies within the standard time. See page 27 for more information.

Part-time study
Part-time study is an option for most of our programs but is only available to Australian and New Zealand citizens and Australian permanent residents. Due to Visa restrictions, International students must apply for full-time study.
Students interested in part-time study should discuss their course choices with College staff to organise an appropriate study plan.
Please note also that some scholarships offered by the College may only be available to students enrolled in full-time study.
Bachelor of Accounting - new in 2014

ANU Program code: 3406
UAC Number: 133053
CRICOS #: 079653K
Duration: three years full-time

Program structure

The program consists of 24 courses of which:

- a maximum of 10 courses can be taken at level 1000 (first year classes)
- a minimum of 14 courses must be taken at level 2000 and 3000 (second and third year classes)

The 24 courses must include:

- the four courses that comprise the Minor in Business and Economics Essentials*
- the following six compulsory courses:
  - Accounting Processes & Systems
  - Introduction to Commercial Law
  - Foundations of Finance
  - Management Accounting
  - Company Accounting
  - Accounting Theory
- two courses from the following:
  - Law of Business Entities
  - Financial Statement Analysis
  - Accounting Information Systems
- three courses from the following list:
  - Auditing
  - Advanced Management Accounting
  - Public Sector Accounting
  - Financial Reporting by Corporations
  - Principles of Tax Law
  - Corporate Social Responsibility, Accountability & Reporting
- a minimum of one elective course from List 1 of the ANU College of Business and Economics.
- eight elective courses which can be taken from any ANU College.

*The minor in Business and Economics Essentials comprises the core courses, Business Reporting & Analysis, Macroeconomics 1, Microeconomics 1 and Quantitative Research Methods. As a compulsory component of the Bachelor of Accounting the minor will not be separately listed in your academic transcript.

Professional accreditation

Students in the Bachelor of Accounting program will undertake a sequence of courses that meets tertiary education
requirements for direct entry into the professional streams of all accounting bodies in Australia. Students wishing to discuss the sequence should contact the College office for details or refer to the following link:
cbe.anu.edu.au/professional-organisations-accreditation

Typical study plan
Bachelor of Accounting meeting professional accounting requirements.

Career options
Accountants are an important component of business life and are constantly in demand. With continuing high global demand for qualified accountants, graduates of the Bachelor of Accounting have a wide range of opportunities working in the public and private sectors.

Some of the roles available to a qualified accountant are: business risk analyst, financial officer, auditor, tax accountant, budget or management accountant, consultant and systems accountant.

Accounting graduates from ANU have secured roles in large accounting firms, government departments, banking and finance organisations, and large corporations.

“I was drawn to accounting by its dynamic nature, countless career opportunities and increasing relevance to every business decision.

Accounting is so much more than just ‘number-crunching’. It’s about thinking strategically, understanding business psychology and analysing the effects that current social and political factors have on shaping the unique challenges each business faces.”

Joyce
Bachelor of Commerce (Majoring in Accounting) / Bachelor of Laws
Bachelor of Actuarial Studies

ANU Program code: 3401
UAC Number: 134403
CRICOS #: 028147F
Duration: three years full-time plus a recommended year of Honours

Actuaries combine skills from mathematics, statistics, economics, and finance to assess, evaluate and manage future financial risk, thereby addressing a wide range of practical problems in long-term financial planning and management.

The standard Bachelor of Actuarial Studies at ANU includes core technical subjects which meet Part I of the Actuaries Institute requirements. Part II can be satisfied through an additional Honours Year.

Program structure
The program consists of 24 courses of which:

> a maximum of 10 courses can be taken at level 1000 (first year classes)
> a minimum of 14 courses must be taken at level 2000 and 3000 (second and third year classes)

The 24 courses must include:

> 14 compulsory courses as follows:
  - Business Reporting & Analysis
  - Microeconomics 1
  - Macroeconomics 1 OR Economics 1 (H)
  - Macroeconomics 2 (P or H)
  - Quantitative Research Methods
  - Introductory Mathematical Statistics
  - Regression Modelling
  - Financial Mathematics
  - Stochastic Modelling
  - Survival Models
  - Risk Theory
  - Credibility Theory
  - Life Contingencies
  - Actuarial Techniques

> two elective courses from within the ANU College of Business and Economics.

> eight elective courses which can be taken from any ANU College.

Professional accreditation
To meet Part I of the professional requirements of the Actuaries Institute in Australia you must complete eight Core Technical (CT) subjects that correspond with 15 ANU courses which are accredited by the Institute. An average grade of 60 per cent must be achieved across the ANU courses corresponding with each CT subject in order to be recommended for the Part I exemptions. For full details on the Part I exemption policy visit: cbe.anu.edu.au/cbe/future-students/actuarial-studies/exemption-policy

Part II requirements of the Institute can be met by an additional fourth year of study in the College, usually in the form of an Honours year. Interested students should contact the ANU College of Business and Economics.

For further information about the Actuaries Institute visit: www.actuaries.asn.au
When I started at ANU I was exposed to so many eye-opening opportunities that I really changed my attitudes and career goals. I discovered that I love statistics and probability theory which was a huge surprise as I dreaded it at school! Learning mathematics and statistics is so engaging! You can apply the concepts to pretty much anything: finance, biology, robotics and even cricket betting.

 Seeing how apparently disparate problems can be tackled with the same statistical approach was really cool. Did you know that physicists use the same model to simulate robots dodging obstacles as financial traders use to decide when to buy and sell? 

Chaturi
Bachelor of Actuarial Studies / Bachelor of Science
The Bachelor of Business Administration aims to develop students’ leadership and management skills.

The degree places emphasis on problem-solving and decision-making, leadership, cross-cultural communications and strategic thinking.

This program develops leadership and management skills through a range of core courses in business communication, managing human resources, marketing, international business, entrepreneurship and innovation, leadership and strategic management. Studies from other areas of the university may also be included in the program.

Career options

The Bachelor of Business Administration provides a comprehensive grounding in the key business skills that are essential in any workplace.

With its focus on the development of leadership and management skills, graduates of the program will be well-equipped to take up management and senior administrative positions in both public and private sectors.

Additionally, with its broad coverage of the different components of business and management, the Bachelor of Business Administration provides an ideal foundation for careers in areas such as human resources, communications, marketing and business strategy.

Graduates will gain a good understanding of the innovation and entrepreneurship essential to creating new commercial ventures and developing existing businesses.

ANU is a fun and dynamic place to study and it has given me opportunities that I never dreamed were possible. I was even fortunate enough to take part in a Sustainability Fellowship at Yale University, an IARU partner institution of ANU.

Being at ANU has encouraged me to push myself academically and at the same time I have learned about myself and grown so much as an individual.

Natalia
Bachelor of Business Administration / Bachelor of Science
Bachelor of Commerce

ANU Program Code: 3400
UAC Number: 133003
CRICOS #: 002289F
Duration: three years full-time

The Bachelor of Commerce offers significant flexibility and diversity for students. The degree comprises core courses including business reporting, economics, quantitative methods and techniques and communication for business.

Students must choose at least one major from the areas of:

> accounting
> business information systems
> corporate sustainability
> finance
> international business
> management or
> marketing.

Program structure

The program consists of 24 courses of which:

> a maximum of 10 courses can be taken at level 1000 (first year classes)
> a minimum of 14 courses must come from level 2000 and 3000 (second and third year classes)

The 24 courses must include:

> the four courses that comprise the Minor in Business and Economics Essentials*
> one compulsory course: Communication for Business
> an eight course major from the following list:
  - Accounting
  - Business Information Systems**
  - Corporate Sustainability
  - Finance
  - International Business
  - Management
  - Marketing
> a minimum of three elective courses from within the ANU College of Business and Economics
> eight elective courses which can be taken from any ANU College.

*The minor in Business and Economics Essentials comprises the core courses, Business Reporting & Analysis, Macroeconomics 1, Microeconomics 1 and Quantitative Research Methods. As a core part of the program, the minor will not be listed on transcripts for students completing the Bachelor of Commerce.

**The major in Business Information Systems is not available for students in the Bachelor of Commerce/Bachelor of Information Technology and Bachelor of Commerce/Bachelor of Software Engineering combined degree programs.

Professional accreditation

Students taking the majors in Accounting or Business Information systems can qualify for membership of the relevant professional bodies through their sequence of study. For more information see the descriptions of the Accounting and Business Information Systems majors in the following pages.

Career options

With its combination of core business courses and major specialisations, the Bachelor of Commerce provides an ideal springboard for a wide range of careers in the private or public sectors.

Depending on your chosen major, the following are some of the areas where you can find work after graduating with a Bachelor of Commerce.

- Accounting: business risk analyst, auditing, budget or management accounting, system accounting.
- Business information systems: consultant or business analyst, database administrator, system analyst or architect, programming and other professional careers in ICT.
- Corporate sustainability: sustainable development manager, ethical supply chains, CSR consultant, or corporate sustainability communications.
- Finance: financial trader, broker, analyst, statistician, corporate treasurer, financial consultant or financial planner.
- International Business: international trade, global sourcing, import/export and supply chain management, or as a business specialist for a multinational corporation.
- Management: human resources, recruitment, business consulting, business analysis.
- Marketing: marketing research, marketing communications, advertising and sales, business development.

"What I like most about my Bachelor of Commerce degree is the flexibility it provides. You're able to choose various majors such as accounting, finance, management or marketing, and so on. You can pursue more than one major, or even take courses from other colleges at ANU to amplifier your university experience."

Chuxin
Bachelor of Commerce
Majoring in Accounting and Finance
Accounting major

The major in Accounting is concerned with the measurement, analysis, reporting and evaluation of information, including computerised information, which assists in the management of resources in business entities and government organisations. Students in the combined program with Law should note they must not take the courses Introduction to Commercial Law, Law of Business Entities, and Principles of Tax Law towards the requirements of the Accounting major, as this content will be covered by courses in the ANU College of Law.

Professional accreditation

The Bachelor of Commerce majoring in Accounting at ANU meets tertiary education requirements for direct entry into the professional streams of all accounting bodies in Australia. Students wishing to discuss the sequence should contact the College office for details or refer to the following link: cbe.anu.edu.au/professional-organisations-accreditation

Structure

This major requires the completion of eight courses including:

> five compulsory courses:
  - Accounting Processes & Systems
  - Management Accounting
  - Company Accounting
  - Accounting Theory
  - Accounting Information Systems

> one core course from the following list:
  - Advanced Management Accounting
  - Public Sector Accounting
  - Financial Reporting by Corporations
  - Corporate Social Responsibility, Accountability & Reporting.

> two core courses from the following list (if not already completed towards the requirements of the major):
  - Introduction to Commercial Law
  - Law of Business Entities
  - Auditing
  - Advanced Management Accounting
  - Public Sector Accounting
  - Financial Reporting by Corporations
  - Principles of Taxation Law
  - Corporate Social Responsibility, Accountability & Reporting
  - Financial Statement Analysis.

Typical study plan

Bachelor of Commerce with a major in Accounting which meets professional accounting requirements.

Business Information Systems major

The major in Business Information Systems is concerned with the study of business information and its production, flows and usage within organisations. It encompasses both manual activities and those involving computing and telecommunications. This major is not available to students to count towards the Bachelor of Commerce component of the combined Bachelor of Commerce/Bachelor of Information Technology and Bachelor of Commerce/Bachelor of Software Engineering degree programs.

Professional accreditation

Students intending to satisfy the requirements for Professional level accreditation with the Australian Computer Society must complete three courses at third year level in their major. These requirements would be satisfied if students completed the courses Enterprise Systems in Business and Project Management and Information Systems towards their major, in addition to Information Systems Management, which is a compulsory course.

Structure

This major requires the completion of eight courses, which must include:

> the following four compulsory courses:
  - Relational Databases
  - Business Information Systems
> Information Systems Analysis
> Information Systems Management

> one core course from the following:
> – Introduction to Programming & Algorithms
> – Tools for New Media and the Web

> three core courses from the following list:
> – Networked Information Systems
> – Information Technology in Electronic Commerce
> – Advanced Databases & Data Mining
> – Accounting Information Systems
> – Enterprise Systems in Business
> – Project Management and Information Systems

Typical study plan
Bachelor of Commerce with a major in Business Information Systems meeting Australian Computer Society requirements.

Corporate Sustainability major
The major in Corporate Sustainability examines the increasing constraints placed on business by both the natural environment and society, and how corporations may create long-term value through innovative responses to these constraints. It is truly multidisciplinary, drawing together insights from management, marketing, accounting, economics, environmental science, law, politics, and philosophy.

Structure
This major requires the completion of eight courses, which must include:

> the following three compulsory courses:
> – Corporate Social Responsibility, Accountability & Reporting
> – Corporate Sustainability
> – Corporate Strategy

> one core course from the following:
> – Business & the Natural Environment
> – Business & its Social Stakeholders

> one core course from the following:
> – Resource & Environmental Economics (P) OR Resource & Environmental Economics (H)
> – Sustainable Marketing

> three core courses from the following list (if not already completed towards the requirements of the major):
> – Resource & Environmental Economics (P) OR Resource & Environmental Economics (H)
> – Human Ecology OR Society & Environmental Change OR Climate Change Science & Policy OR Environmental Policy
> – Human Futures OR Climate Change Science & Policy Field School
> – Law & the Environment
> – Negotiation
> – Managing Organisational Change
> – Business Ethics
> – Business & the Natural Environment
> – Business & its Social Stakeholders
> – Social Marketing
> – Sustainable Marketing
> – Sustainability, System & Agency
> – Development & Change.

Note: some courses have the completion of four courses listed as a prerequisite.

Typical study plan
Bachelor of Commerce with a major in Corporate Sustainability.

* Either Sustainable Marketing or Resource and Environmental Economics (P) or (H); AND either Business and the Natural Environment or Business and its Social Stakeholders
Finance major

The major in Finance introduces students to the basic concepts underpinning finance, applying them to the study of financial instruments and markets; the financial decisions facing the firm; investment decisions and portfolio management; derivatives and risk management.

In addition, depending upon the electives chosen, students will study portfolio construction; corporate valuation; and debt markets. The aim of the major in Finance is to develop skills and competencies in students that will enable them to embark upon a professional career in the fields of financial management, financial consulting and planning, funds management, investment banking and stock broking.

Structure

This major requires the completion of eight courses, which must include:

- the following four compulsory courses:
  - Foundations of Finance
  - Corporate Finance
  - Derivatives
  - Investments

- one core course from the following:
  - Statistical Techniques
  - Quantitative Research Methods

- one core course from the following list:
  - Foundations of Economic & Financial Models
  - Marketing for Financial Services
  - Financial Mathematics

- two core courses from the following list:
  - Corporate Valuation
  - Financial Intermediation & Debt Markets
  - Applied Portfolio Construction

International Business major

The major in International Business borrows from many disciplines to analyse the principal issues and considerations in the growth and functioning of international business organisations and activities.

Structure

This major requires the completion of eight courses, including:

- two compulsory courses:
  - International Business
  - International Strategic Management

- one core course from the following list:
  - Dynamics of Business in the Americas
  - Dynamics of Asian Business
  - Dynamics of Business in the Middle East
  - Dynamics of European Business

- one core course from the following list:
  - International Marketing
  - International Human Resource Management

- four core courses from the following list (if not already completed towards the requirements of the major):
  - Dynamics of Business in the Americas
  - Dynamics of Asian Business
  - Dynamics of Business in the Middle East
  - Development of Modern Business
  - Dynamics of European Business
  - International Marketing
  - Business in China
  - Cross-Cultural Management
  - International Supply Chain Management
  - Negotiation
  - Career Planning & Management
  - International Human Resource Management

Typical study plan

Bachelor of Commerce with a major in Finance.

Management major
The major in Management incorporates a range of disciplines to address the principal issues and considerations relevant to business managers.

Structure
This major requires the completion of eight courses, including:

> the following four compulsory courses:
  - Management, People & Organisations
  - Organisational Behaviour
  - Human Resource Management & Strategy
  - Corporate Strategy

> one core course from the following:
  - Leadership
  - Entrepreneurship & Innovation

> three core courses from the following list (if not already completed towards the requirements of the major):
  - Cross-cultural Management
  - Labour Economics & Industrial Relations (P) OR Labour Economics & Industrial Relations (H)
  - Corporate Sustainability
  - Employment Relations
  - Negotiation
  - Career Planning and Management
  - Managing Organisational Change
  - Techniques for Business Project Management
  - Business Ethics
  - Leadership
  - International Human Resource Management
  - Entrepreneurship & Innovation

Typical study plan
Bachelor of Commerce with a major in Management

*The Management Major Core Course must be chosen from MGMT3021 Leadership or MGMT3027 Entrepreneurship and Innovation.

Marketing major
The major in Marketing combines aspects of economics, commerce, psychology, sociology and statistical analysis in the assessment of market behaviour and the development of appropriate business responses.

Students intending to undertake Honours in Marketing should take at least two of the following courses: Regression Modelling, Advanced Marketing Research Methods, and Generalised Linear Modelling.

Structure
This major requires the completion of eight courses which must include:

> the following four compulsory courses:
  - Marketing Research
  - Marketing
  - Consumer Behaviour
  - Strategic Marketing

> four core courses from the following list:
  - International Marketing
  - Sustainable Marketing
  - Marketing for Financial Services
  - E-Marketing
  - Advertising
  - Social Marketing
  - Entrepreneurship & Innovation
  - Regression Modelling
  - Advanced Marketing Research Methods OR Generalised Linear Modelling

Typical study plan
Bachelor of Commerce with a major in Marketing.

Undergraduate programs 2014
Bachelor of Economics

Program code: 3200
UAC Number: 134003
CRICOS #: 002290B
Duration: three years full-time

The Bachelor of Economics degree offers rigorous training in analytic tools, providing a better understanding of a wide variety of topical policy issues.

Students who study economics at ANU acquire problem solving skills that are highly valued by government and business employers.

It is an intellectually challenging degree that offers insights into the way individuals make decisions and interact with each other, the way businesses are structured and compete, and the role of government in economic activity.

Program structure

The program consists of 24 courses of which:

- a maximum of 10 courses can be taken at level 1000 (first year classes)
- a minimum of 14 courses must come from level 2000 and 3000 (second and third year classes)

The 24 courses must include:

- the following nine compulsory courses:
  - Microeconomics 1
  - Macroeconomics 1 OR Economics 1 (H)
  - Foundations of Economic & Financial Models
  - Quantitative Research Methods
  - Microeconomics 2 OR Microeconomics 2 (H)
  - Macroeconomics 2 OR Macroeconomics 2 (H)
  - Econometrics 1: Econometric Methods
  - Microeconomics 3
  - Macroeconomics 3

- one course from the Economic History (ECHI) subject area
- three elective courses on List 1 of the ANU College of Business and Economics.
- a minimum of three courses on List 2 of the ANU College of Business and Economics
- eight elective courses which can be taken from any ANU College.
Typical study plan

One of the College elective courses must be an ECHi-coded (Economic History) course, preferably taken in 1st or 2nd year.

Career options

The Bachelor of Economics provides a platform for a wide variety of careers across the public and private sectors.

Economists play a crucial role in public policy, and are much in demand in many government departments and corporate organisations. There are also many opportunities for economists in international agencies, in areas such as global economic analysis, development, resource management and the environment.

Many firms employ economists to help understand the wider business environment and guide their business development strategies. Consultancy and accounting firms also employ economists to help guide their clients.

Financial institutions including banks, and in particular the Reserve Bank of Australia, actively recruit economists to advise them on the state of the economy and on risks from factors such as interest rate changes and exchange rate movements.

There is also a thriving national and international market for academic economists in high schools, colleges and universities.

I find the academic opportunities at ANU, particularly in the field of economics, to be outstanding. The curriculum is challenging and engaging and the lecturers are very approachable and helpful.

I enjoy economics because it is a discipline that gives you a rigorous framework to explain and solve complex issues and problems. The applications seem unbounded – whether it be to social choice, market equilibrium or monetary policy – it is the broad nature of economics which appeals to me.

There is a huge amount that economics is still yet to explain and evaluate. These unknowns are exciting and I hope to be part of the ongoing development of economic thought and public policy debates around the world.

Will
Bachelor of Economics (Honours)
Bachelor of Finance

ANU Program code: 3408
UAC Number: 133203
CRICOS #: 039746C
Duration: three years full-time

The Bachelor of Finance is a specialised program offering rigorous training in the theory and applications of finance. The program involves a mainstream core supplemented by studies in related quantitative techniques, methodologies, economics, and management.

Students must choose to major in either Capital Markets or Quantitative Finance. The Bachelor of Finance with the Capital Markets major is recognised as a CFA Program Partner by the CFA Institute.

Finance is concerned with the study of financial instruments, institutions, markets and systems. It involves the study of financial decision-making under uncertainty, which has applications in many fields including banking, financial consulting and planning, funds management, merchant banking, stock broking and treasury.

Program structure

The program consists of 24 courses of which:

- a maximum of 10 courses can be taken at level 1000 (first year classes)
- a minimum of 14 courses must come from level 2000 and 3000 (second and third year classes)

The 24 courses must include:

- five compulsory courses:
  - Business Reporting & Analysis
  - Microeconomics 1
  - Macroeconomics 1 OR Economics 1 (H)
  - Foundations of Finance
  - Quantitative Research Methods

- one core course from the following list:
  - Foundations of Economic & Financial Models
  - Marketing for Financial Services
  - Financial Mathematics

- an eight course major from the following:
  - Capital Markets*
  - Quantitative Finance

- two elective courses from List 1 of the ANU College of Business and Economics.

- eight elective courses which can be taken from the ANU College of Business and Economics or any other ANU College.

Career options

Finance has applications in many fields including banking, financial consulting and planning, funds management, merchant banking, stock broking, and treasury.

Possible jobs for finance graduates include: financial trader or broker, financial manager or analyst; mathematical statistician; corporate treasurer; operations manager; financial consultant; financial planner.
**Capital Markets major**
The major in Capital Markets is concerned with applying the basic concepts introduced in the core finance course, *Foundations of Finance*, to study the financial decisions facing the firm; investment decisions and portfolio management; derivatives and risk management; portfolio construction; corporate valuation; and debt markets.
The aim of the major in Capital Markets is to develop skills and competencies in students that will enable them to embark upon a professional career in the fields of corporate financial management, financial consulting and planning, funds management, investment banking and stock broking.

This major consists of eight compulsory courses:
- Corporate Finance
- Derivatives
- Investments
- Corporate Valuation
- Financial Intermediation & Debt Markets
- Applied Portfolio Construction
- Corporate Strategy
- Regression Modelling

**Quantitative Finance major**
The major in Quantitative Finance builds skills in the concepts and techniques required in the financial markets for statistical analysis and modelling, risk management, model calibration, and derivatives pricing.

Students will develop competency in both the theory and the implementation.
The analytic skills obtained will be highly beneficial for a career in a hedge fund, funds management, derivatives trading and sales, risk management or consulting.

This major requires the completion of eight compulsory courses:
- Corporate Finance
- Derivatives
- Investments
- Continuous Time Finance
- Advanced Derivatives Pricing & Applications
- Introductory Mathematical Statistics
- Regression Modelling
- Stochastic Modelling

**Typical study plan**

Bachelor of International Business

ANU Program code: 3409
UAC Number: 133303
CRICOS #: 047472C
Duration: three years full-time

In this program the study of core international business subjects is enhanced through the study of a language and the culture of a specific region. Students can choose one of four regional specialisations:

> Asia
> Europe
> Latin America or
> the Middle East.

Students completing the Asia or European specialisation may choose to study for one semester (in English) at one of our partner institutions.

Program structure

The program consists of 24 courses of which:

> a maximum of 10 courses can be taken at level 1000 (first year classes)
> a minimum of 14 courses must come from level 2000 and 3000 (second and third year classes)

The 24 courses must include:

> the four ANU College of Business and Economics courses comprising the Business and Economics Essentials minor*
> the following two compulsory courses:
  – International Business
  – International Strategic Management
> one core course from the following list:
  – Dynamics of Asian Business
  – Dynamics of Business in the Middle East
  – Dynamics of European Business
  – Dynamics of Business in the Americas
> one core course from the following:
  – International Marketing
  – International Human Resource Management
> two core courses from the following list (if not completed in a requirement above):
  – Dynamics of Asian Business
  – Dynamics of Business in the Middle East
  – Development of Modern Business
  – Dynamics of European Business
  – Dynamics of Business in the Americas
  – International Marketing
  – Business in China
  – Cross-Cultural Management
  – International Supply Chain Management
  – International Human Resource Management
> 10 courses from one of the four regional lists below.
> four elective courses which may be taken anywhere at the University.

Asia specialisation

> the following two compulsory courses:
  – Individual & Society in Asia & the Pacific A
  – Individual & Society in Asia & the Pacific B
> six courses in a single Asian language (Chinese, Hindi, Indonesian, Japanese, Korean, Sanskrit, Thai, Urdu or Vietnamese)
> two courses offered by the School of Culture, History and Language within the ANU College of Asia and the Pacific.
Europe Specialisation
> the following two compulsory courses:
  – Europe in the Modern Era: Foundations of International Relations
  – European Union: Policies, Institutions and Challenges
    (This course is only offered every second year)
> six courses in a single European language (French, German, Italian or Spanish) with not more than two courses at 1000 (first year) level.
> two courses offered by the ANU College of Arts and Social Sciences (CASS)

Latin America Specialisation
> the following two compulsory courses:
  – An Introduction to Latin American Politics and Society
  – Development in Latin America
> six courses in Spanish with not more than two courses at 1000 (first year) level
> two courses offered by the ANU College of Arts and Social Sciences (CASS)

Middle East Specialisation
> the following two compulsory courses:
  – Introduction to the Modern Middle East
  – The Political Economy of the Middle East
> six courses in Arabic or Persian with not more than two courses at 1000 (first year) level
> two courses offered by the Centre for Arab and Islamic Studies

Typical study plan
Bachelor of International Business with Asia specialisation.

Career options
Graduates can find work as international trade specialists, in global sourcing, the import and export business, international business development, international marketing and international accounting.

“The international arena of business has always been my interest. My degree helps me unlock Asia’s business environment and provides deeper insights into the workings of the region.

By exposing students to the language, history, culture and customs of a chosen region the Bachelor of International Business equips us with the practical knowledge required to conduct trade in countries all around the world.

The mix of arts and language subjects with core business courses helps students blend a useful body of background knowledge into their daily problem solving and thought processes.

Weida (Will)
Bachelor of International Business
Bachelor of Statistics

ANU Program Code: 3407
UAC Code: 134200
CRICOS #: 061240A
Duration: three years full-time

The Bachelor of Statistics offers a rigorous program of training in the theory and application of statistics. The program involves a core mainstream statistical application and theory, supplemented by studies in specialist streams.

Students may choose to specialise in any of a number of areas including: Business Statistics, Econometrics, Financial Statistics, Statistical Methodology, Applied Probability and Psychological or Sociological Research Methods.

Statistics is concerned with the study of quantitative data analysis, including estimation, prediction and hypothesis testing. It has applications in many fields including the physical, biological and social sciences as well as business, finance, engineering and information technology.

Program structure

The program consists of 24 courses of which:

- a maximum of 10 courses can be taken at level 1000 (first year classes)
- a minimum of 14 courses must come from level 2000 and 3000 (second and third year classes)

The 24 courses must include:

- the following 11 compulsory courses:
  - Introduction to Programming & Algorithms
  - Mathematics & Applications 1 OR Mathematics & Applications 1 (Honours)
  - Mathematics & Applications 2 OR Mathematics & Applications 2 (Honours) OR Mathematical Foundations for Statistics
  - Statistical Techniques OR Quantitative Research Methods
  - Introductory Mathematical Statistics
  - Regression Modelling
  - Scientific Computing
  - Stochastic Modelling
  - Graphical Data Analysis
  - Design of Experiments & Surveys
  - Statistical Inference

- four courses on List 3 of the ANU College of Business and Economics.
- one elective course from List 1 or List 3 of the ANU College of Business and Economics
- eight elective courses which can be taken from any ANU College.
Typical study plan

Career options

An ability to understand, analyse and draw insights from statistical data has become an ever more valuable skill in the modern world.

Graduates of the Bachelor of Statistics will be well prepared for careers in many areas including:

> applied research, for example market research;
> academic research, particularly in the social sciences;
> the public sector, which employs statisticians to assist with policy and program development and evaluation; and
> finance and banking sectors, as a business analyst.
Bachelor of Social Sciences
(Honours in Actuarial Studies and Economics)

Jointly offered with the National University of Singapore (NUS)

ANU Program Code: 4444
UAC Code: 134454z
CRICOS #: 050951E
Duration: four years full-time

This is a unique and challenging program for elite students combining the expertise of two institutions of high international standing.

Studying half the program at ANU in Canberra and half at the National University of Singapore, students have the benefit of a truly international learning experience.

Program structure

The economics element of the program is offered by NUS. It consists of 16 courses, including the Honours thesis which is completed in the final semester. Students also complete two exposure modules from the Faculty of Arts and Social Sciences at NUS.

The actuarial studies element is completed at ANU starting in the fourth semester of the program. It consists of 12 compulsory programs and four elective courses to be taken within the ANU College of Business and Economics.

The general requirements of the program are:

Courses at ANU

- Derivatives
- Investments
- Continuous Time Finance
- Financial Mathematics
- Introduction to Mathematical Statistics
- Stochastic Modelling
- Survival Models
- Risk Theory
- Credibility Theory
- Life Contingencies
- Actuarial Techniques
- Actuarial Control Cycle A1
- Actuarial Control Cycle A2
- Actuarial Control Cycle B
- two elective courses from the ANU College of Business and Economics
- Actuarial Control Cycle B
- two elective courses from the ANU College of Business and Economics

Courses at NUS

- Introduction to Economic Analysis
- Foundations for Econometrics
- Financial Accounting
- Linear Algebra I
- Calculus
- Microeconomic Analysis I
- Macroeconomic Analysis I
- Econometrics I
- Finance
- Microeconomic Analysis II
- Macroeconomic Analysis II
- Econometrics II
- Microeconomic Analysis III
- Macroeconomic Analysis III
- Honours Thesis
- one Economics Level 4000 elective
- one module in Singapore Studies
- one module in General Education OR
- one exposure module from the NUS Faculty of Arts and Social Sciences.

*subject to finalisation.

Australian and New Zealand students must apply for the Bachelor of Social Sciences (Honours in Actuarial Studies and Economics) commencing in Semester 1.

International Students must apply for the degree no later than March 15 each year, and must have accepted their offer and satisfied all conditions by April 1. Once applications have been finalised, the program then commences in Second Semester. The first three semesters are undertaken at the National University of Singapore in Singapore.
WIDEN YOUR HORIZONS

Student Mobility program

The International Exchange program provides an exciting and rewarding experience for students wishing to widen their horizons. Studying abroad can provide fresh perspectives on your subject, and exposure to different approaches to education.

At the same time, it is an invaluable opportunity to get to know a new country, its commercial life, its culture and its people.

The Australian National University has an extensive network of exchange partners around the world.

Where can you go?

ANU has over 100 exchange partners in 27 different countries around the world.

Asia
- China
- Hong Kong
- Japan
- Korea
- Malaysia
- Singapore
- Taiwan
- Thailand
- Vietnam

Australasia
- French Polynesia
- New Zealand

Europe
- Austria
- Denmark

France
- Germany
- Ireland
- Italy
- The Netherlands
- Norway
- Sweden
- Switzerland
- United Kingdom

North America
- Canada
- United States
- Mexico

South America
- Chile
- Colombia

For a full list of our partner institutions and more information about the Student Mobility program visit: info.anu.edu.au/studyat/International_Office/exchange

I completed a six month international exchange program at the University of North Carolina Chapel Hill in the United States.

In addition to the academic benefits, going on exchange helps you develop as a well-rounded person. The friends you make and the adventures you have create a lifetime of memories. You gain skills from living abroad that you will use for the rest of your life.

Studying abroad was undoubtedly one of the best experiences of my life. Completing my degree at not just one, but two fantastic learning institutions is an amazing opportunity.

Molly
Bachelor of Economics / Bachelor of Commerce
**Australian and New Zealand applicants**

Australian and New Zealand citizens, Australian permanent residents and international applicants completing high school in Australia, should apply to the ANU through the Universities Admissions Centre (UAC). Applications for Semester 1 (February) entry generally open in early August and close towards the end of September (for on-time applications).

All UAC applicants must apply online through the UAC website. Please refer to the UAC website for further detail on closing dates and late application fees.

Students can also apply for mid-year entry and commence their studies at ANU during July in Semester 2. The application deadline through UAC is usually in early June.

All of our undergraduate programs are available for Semester 1 or 2 commencement with the exception of the Bachelor of International Business (Semester 1 entry only), and the Bachelor of Social Sciences (Honours in Actuarial Studies and Economics) which commences at the National University of Singapore in July/August each year.

To assist in applying, read The UAC Guide which is available for sale from most newsagents in the ACT and NSW, from UAC, or from interstate tertiary admissions centres from early August.

**Entry requirements for Australian and New Zealand applicants***

AK: a level of mathematics knowledge is assumed for students in these programs (see page 32 for more details)

+: these programs have compulsory advanced mathematics prerequisites (see page 32)

*Please note: the entry requirements quoted here are a guide only based on the previous year. Levels can vary from year to year. Entry requirements for the new Bachelor of Accounting program are an estimate only.

**Bonus points**

**The National Access Scheme 2014**

ANU offers bonus points for nationally strategic senior secondary subjects, and in recognition of difficult circumstances that students face in their studies.

Bonus points are applied to all applicants with an ATAR at or above the University’s floor of 80. Points are awarded in accordance with the approved schedule, and no more than 10 points will be awarded (a maximum 5 academic points and maximum 5 equity points).

Bonus points to do not apply to programs with an ATAR cutoff of 98 or higher.

Bonus Points are only awarded to domestic applicants applying for admission through UAC who have not previously attempted tertiary study.

**How to apply**

Academic Bonus Points: senior secondary students do not need to apply for ANU academic bonus points. They are automatically added in accordance with the schedule.

Educational Access Scheme: senior secondary students do not need to apply if their school is part of the Priority School Funding Program or Country Areas Program. All other applicants should refer to the UAC website www.uac.edu.au/undergraduate/eas for more information.
**Flexible double degree programs**

Flexible double degrees have increased the range of options for undergraduate students so you can create a program of study to suit your needs and interests.

When applying, you choose the group from the table below that includes the degrees in which you are interested. Subject to the entry requirements and any prerequisites, of individual degrees you will then be able to choose any combination of degrees from within your chosen group when you accept your offer.

The entry requirement for any double degree will be the same as the higher of the two individual degrees.

### Group 1

**Arts, Social Sciences, Business, Science**

Four years full-time

Choose any two of the following:

<table>
<thead>
<tr>
<th>Bachelor of</th>
<th>ATAR cutoff 2013</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actuarial Studies</td>
<td>95</td>
</tr>
<tr>
<td>Archeological Practice</td>
<td>80</td>

<td>86</td>
</tr>
</tbody>
</table>

* Program includes another prerequisite in addition to ATAR score. See page 32 for prerequisites for business and economics degrees.

# The degrees of Biotechnology, Genetics and Medical Science cannot be combined with each other.

A+C - Group ATAR plus interview/portfolio or audition requirements apply.
**International applicants**

If you are an international applicant who is undertaking an Australian Year 12 (ATAR) qualification, an International Baccalaureate (IB) in Australia or the New Zealand National Certificate of Educational Achievement Level 3, you should apply directly through the Australian University Admissions Centre (UAC) International at: [www.uac.edu.au/international](http://www.uac.edu.au/international)

Alternatively, if you are an international applicant who has studied another overseas qualification, then you can apply directly to the ANU online at: [applyonline.anu.edu.au](http://applyonline.anu.edu.au)

International applicants may also be interested in using the services of ANU registered agent representatives, who can assist with the application process. A full list of ANU agents in your country can be found at: [students.anu.edu.au/contacts/agents](http://students.anu.edu.au/contacts/agents)

**Entry requirements for international applicants 2014**

Please note: the entry requirements quoted here are a guide only based on the previous year. Levels can vary from year to year.

**Notes**

1. The University reserves the right to alter or discontinue its programs as required. Please note that not all degrees are available to commence in both Semesters. The scores published should be used as a guide only, the University may vary these requirements at any time.
2. The scores listed represent what was required for admission in 2013 and should be used as a guide only.
3. QLD - bands for Overall Positions. These should be used as a guide only as they are based on the previous year’s conversion and may change from year to year.
4. The ANU College of Business and Economics uses a different method in calculating the Foundation Grade Average to that shown on the ANU College transcript of Results. Please contact the ANU College of Business and Economics directly for further details.
5. International Baccalaureate.
6. STPM best of three calculated on A=7; A-=6; B+=5; B=4; C+=2; C=1. Malaysian UEC calculated on A1=1; A2=2; B3=3; B4=4; B5=5. HKALE best of three scores calculated on A=5; B+=4; C+=3; B=2; E=1. AssisC best four externally examined subjects where A1=5; A2=4.5; B1=3.5; B2=3; C1=2; C2=1.5; D1=1; D2=0.5. Sri Lankan GCE best three scores calculated on A=5; B=4; C=3 and S=1.
English language requirements
All applicants to the University, both domestic and international, must provide evidence that their English language ability meets the minimum requirements for admission.
Applicants who are citizens of Australia, Canada, Fiji, Ireland, Kenya, New Zealand, Papua New Guinea, Singapore, Solomon Islands, South Africa, United Kingdom, United States of America, Samoa or Zambia can demonstrate English language capability by evidence of completion of their bachelor degree where the medium of instruction was English at a recognised local university in their home country.
Applicants from all other countries, including Australian permanent residents, will usually be required to supply evidence of English language capability which meets ANU requirements:

> IELTS of 6.5 with no band below 6.0; OR
>
> TOEFL of 570 (paper based test) with a Test of Written English score of 4.5
>
> TOEFL of 80 (internet based test) with a minimum of 20 in Reading and Writing and 18 in Speaking and Listening.

Applicants who do not meet the required English criteria may be eligible to apply for the ANU Access English program or the ANU Access Preparation English program offered by ANU College. Visit www.anucollege.com.au for more information.

In addition to the ANU requirements, please note that prospective students will also need to comply with the Australian Government’s English Proficiency requirements for a student visa in order to study in Australia.

still encouraged to apply, as equivalent results in other examinations may be acceptable for admission

still encouraged to apply, as equivalent results in other examinations may be acceptable for admission

8. Singapore A-level entry for all programs is determined by the total of the best three H2 subjects (where A=5, B=4, C=3, D=2, E=1) PLUS the best 1 H1 content-based or Project Work or General Paper (GP) or Knowledge & Enquiry (K) subject (where A=2.5, B=2, C=1.5, D=1, E=0.5). Mother tongue may not be included.

5. Assessed on 4 core and 1 elective subjects (currently under review). Please refer to website listed above for more up to date information.

7. Applicants are required to have successfully completed a US high school diploma with a GPA of at least 3.0.

1. Bachelor of Accounting entry requirements given here are estimates only.

‡ Case by case consideration. College approval required.

† Other acceptable Foundation Studies Programs: Canberra Institute of Technology (CIT) FSC, Monash U FSC, RMIT FSC, ALUPF, NCUK IFY, Bradford College FP (U Adelaide), U QLD FSP, U Newcastle FSC, U Sydney IFSC, U Wollongong FSC, U Western Sydney FSP, WAIUPF, U Tasmania FSP, U Auckland FSC. For specific entry requirements please contact ANU. Other programs may be considered.

‡ Minimum result for consideration is indicated, however all applications to these programs will be assessed on a case by case basis. College approval required.

~ For temporary residents on non-student visas only.

Undergraduate programs 2014 31
Mathematics prerequisite requirements

Applicants for the Actuarial Studies, Statistics and Bachelor of Social Sciences degrees must satisfy a high mathematics prerequisite which is a compulsory requirement for admission.

- Bachelor of Actuarial Studies
- ANU/NUS Bachelor of Social Sciences (Honours in Actuarial Studies & Economics)
- Bachelor of Statistics

Mathematics assumed knowledge

Unlike a prerequisite, assumed knowledge is not a strict requirement for entry into these programs. However, the courses within these programs are taught on the assumption that students have an appropriate level of mathematical knowledge.*

- Bachelor of Accounting
- Bachelor of Commerce
- Bachelor of Economics
- Bachelor of Finance
- Bachelor of International Business

<table>

</tr>
</tbody>
</table>

For more information about these scholarships, and how to apply for them, visit the College’s scholarships web page: cbe.anu.edu.au/scholarships

There are also many ANU-wide scholarships on offer. For more information about University administered awards visit the ANU scholarships page at: students.anu.edu.au/scholarships/ug
Alternative pathways

Advanced standing
The College may offer advanced standing to students who hold relevant post-secondary qualifications, or who wish to transfer from other tertiary institutions. Applications for advanced standing should be made at the time of application for admission. Enquiries concerning advanced standing status should be directed to the College Student Office at: info.cbe@anu.edu.au

Mature age entry
If you are not a recent school-leaver you might qualify for mature age or adult entry. You may still qualify for admission to the University on the basis of previous studies. If not, have a look at the ANU Special Adult Entry Scheme or the University Preparation Scheme. There are a number of pathways into university studies for the mature age student. Chances are there is one that is right for you. More information about the various mature age entry options can be found at: students.anu.edu.au/applications/mature

Educational Access Scheme
The Educational Access Scheme is part of the University’s commitment to equality of access to tertiary education for all Australians. This scheme is available to applicants with strong academic potential who have been disadvantaged during high school. Conditions such as geographical isolation, lack of school facilities, illness, low family income or emotional trauma can mean that you may fall below the required Australian Tertiary Admission Rank (ATAR) for your chosen program. Successful applicants can receive up to five bonus points for equity reasons. Details of the Educational Access Scheme can be found at: students.anu.edu.au/applications/pathways.php

Special consideration
Has your academic performance been adversely affected by unusual circumstances and you are not eligible to apply through the above Educational Access Scheme? If this is the case, you can complete a special consideration form to assist with the assessment of your application. This application will be considered in conjunction with all other available information and will not necessarily result in a variation in the assessment. More information about special consideration can be found at: students.anu.edu.au/applications/consideration.php

Useful information

Programs and courses
‘Programs and Courses’ is an online database providing comprehensive information about education offerings at The Australian National University. You can view detailed program requirements, study plans for any single or combined degree combination, and browse the full course syllabus for each of your classes. The Programs and Courses at ANU database also provides course codes (for example the code "BUSN1001" refers to "Business Reporting and Analysis"). Once at ANU, students can use these course codes to enrol in their classes.

Talk to a current ANU student
The College of Business and Economics has a number of Student Ambassadors who can share their real-life experiences of studying at the ANU. Chat to one of our current students today by contacting:
cbe.ambassadors@anu.edu.au

Useful information

Programs and courses
‘Programs and Courses’ is an online database providing comprehensive information about education offerings at The Australian National University. You can view detailed program requirements, study plans for any single or combined degree combination, and browse the full course syllabus for each of your classes. The Programs and Courses at ANU database also provides course codes (for example the code "BUSN1001" refers to "Business Reporting and Analysis"). Once at ANU, students can use these course codes to enrol in their classes.
