Grade requirements

HELP University students who would like to articulate to the Bachelor of Commerce or the Bachelor of Business Administration at ANU with credit must achieve an overall GPA of 3.3/4 in order to be eligible for admission and up to one year of credit (as outlined in the above schedule).

A minimum grade of credit (CR) or above is required per course completed at HELP in order for credit to be granted at ANU. If a student does not receive a grade of CR or above for a course, they will not receive credit for that particular course.

Each application is assessed on an individual basis and the ANU College of Business and Economics will make the final decision as to the student’s entry into the program.

Important notes

A maximum of 8 courses (48 units) of credit will be granted towards an ANU College of Business and Economics undergraduate program, as outlined above.

If a student is granted credit for previous studies, it reduces the number of courses (units) required in the selected degree program. Any credit received will impact upon the choice of courses available to students studying in these programs at ANU.

Jakob

Current ANU student from Malaysia

My degree equips me with specialised knowledge and techniques for my chosen field. But it also sharpens my broader business and management skills and allows me to choose from a huge variety of extra elective courses which is awesome!

ANU offers me unique opportunities to extend my academic experience beyond the lecture hall.

I’m a student ambassador and a member of many clubs and societies - I have already met a lot of amazing people here.

I’m confident that graduating from The Australian National University, one of the most outstanding and prestigious universities in the world, will benefit me enormously and help me to achieve my career goals.
