

Choc-coconut balls

Ingredients

1 packet of Milk Arrowroot biscuits

1/3 cup cocoa powder

½ cup desiccated coconut (plus a bit extra for rolling the balls in)

1 tin of condensed milk.

Method

- 1. Blend all ingredients, adding the condensed milk last – either in a mix-master or in a bowl (if using a bowl, crush biscuits finely first by crushing in the packet before opening, then with a rolling pin).**
- 2. Use a teaspoon, measure a spoonful of the mix, roll in your hands into little balls.**
- 3. When formed into a ball, roll in desiccated coconut for an outside coat, set aside – eat – or store in a container (with baking paper between layers if you are fussy that they remain separated)**

***Will keep in the fridge for a few days so no need to consume all at once 😊 Ideal for long weekends, or between Christmas and New Year's, but why wait!**
